

FILE

FASTER, EASIER, MORE SECURE INTERNATIONAL FILINGS

FILE

CHANGING THE WAY YOU MANAGE YOUR INTERNATIONAL FILINGS FOREVER

The International filings process is notoriously tedious, manual and inefficient. Communicating with your global law firm network is slow and unstructured. Archaic systems make filing extremely time consuming. The process is labour intensive and prone to human error. The good news is that technology has moved on, and now so can you.

File is the first fully automated international filing platform. It seamlessly connects you to your trusted global IP law firm network and automates each step of the international filing process.

Instruct all stakeholders with one simple instruction, collaborate with your international law firm partners and share IP information and status updates in real time – all from one app.

File dramatically reduces the related administrative workload, saving time and money, and freeing your team to focus on other activities.

INSTRUCT ALL IP TYPES THROUGH FILE

- PCT National Phase Entry filings
- Direct international Patent filings
- Direct international Trademark filings

FASTER, EASIER, MORE SECURE FILING

Save time. Reduce instruction preparation time with streamlined processes and realign your resources to focus on more value-added work. Find all the case documentation you need within a single app and spend less time searching, sorting and uploading emails and other communication.

Increase efficiency. Automated and standardised filing processes reduce complexity and increase accuracy. At-a-glance progress tracking for each filing, allows you to easily track all tasks from application to receipt.

Reduce risk. Automation reduces the need for manual data entry reducing the risk of human error. Dependable processes and progress alerts prevent missed deadlines.

Optimise your law firm network. Collaborate more efficiently with your trusted law firm network. Reduced oversight of managing agents and increased accountability for each filing ensures managing agents are maximising the use of their billable hours.

FEATURES

LAW FIRM ADDRESS BOOK

Simplify the way you instruct your international law firms with pre-stored contact and jurisdictional information in the Address Book.

IP ONE DATA

Search for published WIPO case information in IP One Data, the most comprehensive IP data set in the industry. Get instant related case information from within the app.

AUTOMATED WORKFLOWS

Make instructing law firms efficient and structured. Simply select the countries you want to file in, the law firms to instruct, enter your requirements and upload supporting documentation and confirm.

PROGRESS UPDATES

Track filing progress with every law firm in a single view that shows progress for each step of the process. Get real-time updates when your instruction is received and acknowledged.

EASY COMMUNICATION

Chat with your law firms in real-time in the chat panel or send a reminder to those with outstanding actions using the 'query all' feature.

ALL CASE DOCUMENTATION IN ONE PLACE

All case information including Filing Receipts and Power of attorney documents are available in one easy to access place.

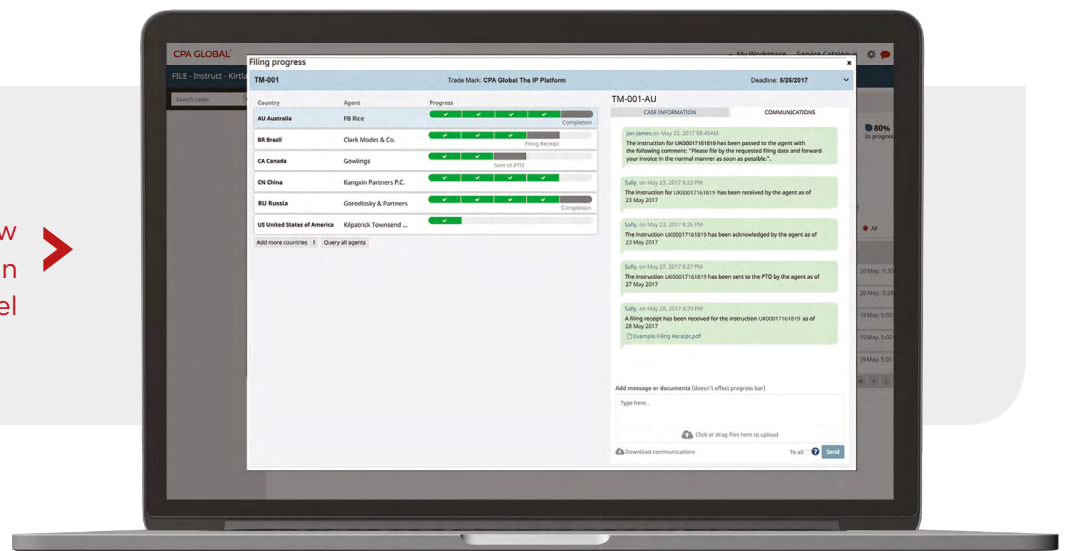

INTEGRATABLE

CPA Global IPMS users can now enjoy a seamless integration with the File App ensuring that data is synchronised and records are updated automatically.

THE IP PLATFORM

File is part of The IP Platform, a connected new world for idea lifecycle management. The IP Platform is your gateway to a network of thousands of IP professionals collaborating through intelligent and connected apps underpinned by a common data model.
