Tool carrier made from plastic or sheet steel æ With plastic inserts

Application: Execution:

- The tool holders are inserted longitudinally into the profile rails in the shelf, cabinet or trolley.
- Ident. No. 020-126:
- Made of polypropylene copolymer

For storing CNC tool holders.

- Impact and scratch-resistant, not heat-sensitive Resistant against mineral oil and various chemicals
- Grips on the front sides
- Ident. No. 128:

Ident. No. 020

Ident. No. 030, 070-126 Ident. No. 050

• Fitted with 2 plastic mounting pins for HSK 80 and HSK 100

Notes:

Ident. No. 020–126: Profile rails for attaching to walls for mounting tool carriers 940 mm in length (no. 50655 271) and 500 mm in length (no. 50655 273) with brackets (no. 50655 280) deliverable on request.

Technical data:

Length: 220 mm

- Width: 135 mm
- Height: 135 mm

Example with two tool

carriers - profile rail with wall mounting brackets deliverable on request

Ident. No. 128 Made of steel sheet for HSK 80 and 100 adapter

CNC tool carriers made from foam æ

For SK and HSK tool chucks

Application:

For secure and space-saving storage of CNC tool adapters in your workplace.

Execution:

- Made of EPP (expanded polypropylene) particle foam
- Oil, acid and coolant-resistant
- Impact-resistant and shatter-proof

Ident. No. 010

Ident. No. 015

Advantage:

- Low tare weight easy to clean
- Each holder can easily be cut to the required size using a bandsaw
- The holders can be easily and safely connected to each other using a hot glue gun

Technical data:

Material: Particle foam EPP

CNC tool trolley

For customised configuration with support profiles nos. 50654 810-858 and accessories

Application:

For secure transport and retrieval of CNC tools.

Execution:

- Sturdy sheet steel structure
- Deposit tray on top for tools and small parts
- Push handlebar made of stainless steel tubing, over the entire depth of the carriage, for easy mobility and to reduce the risk of injury
- Wheeled with 2 fixed and 2 guide rollers, with wheel stops, roller diameter 125 mm, made of solid rubber
- Ident. No. 800-801:
- Grid in the side walls to accommodate 4 support profiles, no. 50654 810-858 with spacing of 48 mm, incline of the support profiles 23.5 °
- With perforated metal rear panel 10 x 10 mm, distance between holes 38 mm, to accommodate hooks and tool holders
- Four support profiles, no. 50654 810-858 can be accommodated in the trolley
- Ident. No. 805-806:
 - Grid in the side walls to accommodate support profiles with spacing of 48 mm, incline of WTS support profiles 23.5°
 - · Eight support profiles, no. 50654 810-858 can be accommodated in the trolley

special solutions for storage of CNC tools

CNC tool shelf – for open storage of CNC tools For customised configuration with support profiles nos. 50658 110-158

Application:

For clearly-laid-out storage and retrieval of CNC tools. Customised fitting with support profiles, no. 50658 110-158 and tool holders, no. 50655 020-126.

Execution:

- Sturdy steel sheet metal structure, made of steel sections, welded
- Can be installed back to back or side by side in a row
- Depending on the protruding length of the tools, the shelf can be fitted with up to 7 levels (support profiles)
- Do not exceed max. load capacity of 50 kg per level (support profile)
- For heavy tools and attachments, we recommend our HK cabinets no. 50658 020-045/50658 005-016 with load-bearing capacities of up to 1000 kg

Advantage:

- Flexible storage of various tool holders
- Tool holder no. 50655 020-126 can also be used in the shelf if hook-in profile ident. no. 165 is installed

Delivery:

Does not include support brackets, hook-on profiles or support profiles, these must be ordered in addition to the shelf

Notes:

Do not exceed max. load capacity of 50 kg per level (support profile). Must be screwed to the floor or wall (mounting materials not included). One pair of support brackets no. 50658 160 per storage level must be ordered together with shelf no. 50658 050-052.

Technical data:

Material: Sheet steel

Configuration example: Shelf ref. no. 050 fitted with 6 support profiles for holding SK 40 no. 50658 115 combined with support angles ref. no. 160

Configuration example: Rack ref. no. 050 fitted with WTS support profiles no. 50658 110-158 combined with support angles ref. no. 160 and tool carrier no. 50655 020-126 combined with hook-on profile ref. no. 165

Ident. No. 020 (without tools)

vertical cabinets maximum storage capacity in minimum space

Apfel vertical cabinets make optimum use of space. they minimise large storage areas to the smallest possible space and provide safe and convenient storage of tools, small items and bulk goods. the robust construction allows loads of up to 5400 kg per cabinet. The drawers run smoothly and securely

storage space in each drawer for small material

highest load capacity thanks to running castors

carrying bags for easy change of location

6000 mm

Conventional roller-shutter cabinets (shown to scale)

Tool cabinet with 3 vertical extensions 🔵 apfel For very space-saving storage of CNC tools

Execution:

- Robust design made of 3 mm steel sheet
- Sturdy plastic rollers with needle bearings that withstand heavy loads
- Includes tool holders with receptacles for optimum use of space and precise fit
- Access on both sides reduces the injury risk
- Drawers separately lockable and with label field for easy identification
- Lateral fork pockets for quick and easy relocation using a pallet truck or fork lift truck
- Store up to 144/288 metal cutting tools over a width of 660 mm
- Variable attachment of tool holders in holes with 25-mm hole spacing
- Other paint colours deliverable on request.

Advantage:

1480

· Clean, secure and careful storage of all common drilling and milling tools

Ident. No. 002

- Optimum visibility and quick access thanks to a unique system with plastic holders
- Maximum load-bearing capacity and steady drawer guidance with revolving wheels

Notes:

Number of respective tool adapters is indicated in the separate information shown. When ordering, please specify the tool fixtures with which you would like to equip the cabinet. Different tool fixtures can be combined in one cabinet. Further configurations can be found in subsection Vertical Cabinets from no. 50640080-093.

Technical data:

- Lock type: Cylinder lockMaterial: Sheet steel
- Colour of front: Grey white RAL 9002

Ident. No. 012

Tool cabinets with 3 vertical extensions of 300 mm, load capacity per extension 1800 kg For very space-saving storage of CNC tools

Execution:

- Robust design made of 3 mm steel sheet
- Sturdy plastic rollers with needle bearings that withstand heavy loads
- Includes tool holders with receptacles for optimum use of space and precise fit
- Access on both sides reduces the injury risk
- Drawers separately lockable and with label field for easy identification
- Lateral fork pockets for quick and easy relocation using a pallet truck or fork lift truck
- · Variable attachment of tool holders in holes with 25-mm hole spacing
- Other paint colours deliverable on request.
- Ident. No. 008: Store up to 180 metal cutting tools over a width of 1040 mm
- Ident. No. 010: Store up to 90 metal cutting tools over a width of 1040 mm

Advantage:

• Clean, secure and careful storage of all common drilling and milling tools
