## SPEAKER BIOGRAPHIES

**Dr. Adrian Leung**, *Founder & Chair, Housing Security & Privacy Forum, and Head of Information Security, Catalyst*

Adrian leads Catalyst's multi-year security and privacy transformation programme. He is also the founder and chair of the Housing Security & Privacy Forum. He has extensive information security, privacy and risk management experience gained through roles

across different industry sectors. He adopts a pragmatic approach to information security and strongly believes it to be a business enabler. Adrian has contributed to the development of international security standards and is regularly invited to speak at security conferences. He is a currently also panel member for one of the projects in the Research Institute in Science of Cyber Security hosted by UCL.

**Noriswadi Ismail**, *Senior Manager, Advisory, Data Privacy, Ernst & Young LLP*

Privacy by Design Ambassador. Member of EY Far East Network (UK-China Trade Route) focussing on Chinese High Net Worth individuals/investors and EY Japanese Business Services based in London. Founder - EY Data Protection Day 2016 for clients. Leading strategic relationship management with the

International Association Privacy Professional and European Privacy Association.

**Laura Scaife**, *Managing Director, Datultacy Limited*

Laura is a data privacy, cyber and social media specialist and advises an enviable range of FTSE 100 clients who consistently praise her pragmatic advice on some of the UK's most significant and innovative data projects. In addition to her role as Managing Director of Datultacy, she is a PhD candidate and is

currently writing two new legal volumes, one on terrorism, in conjunction with security experts.

**Ade Taylor**, *Technical Director, Secure Link UK*

Ade has worked in a range of technical, management and strategy roles across multiple industries in public and private sector as both a customer and supplier of technology. More than half of Ade's 25 year career has been in specialist security roles and has spanned the early days of mainframe and network security, through the proliferation of personal computing and the

widespread adoption of the internet as a business tool, giving him a unique perspective on the huge challenges of securing today's mobile and "app" driven economy, together with the morphing of hacking from an intellectual pastime to a globally organised criminal endeavour via the mischief making of the early 90s, all in the context of the original dot.com boom, to the mature environment of today's online world.

**Andrew Mitchell**, *Client Director, Armadillo Managed Services Ltd*

Andrew has over 16 years' experience within the IT industry, with 9 years specifically dedicated to IT Security. He recently re-joined Armadillo Managed Services as a Client Director, focussed on providing high levels of managed services, security solutions and processes to his valued customers. Andrew's client

portfolio includes many of the Fortune 500 companies and this has led to a vast skillset which Andrew utilises to enable organisations to conduct their business in confidence, without fear of security attack and without compromising the ways in which they operate.

**Sam Linton**, *Data Protection Project Officer, Acis Group*

Sam Linton is a project and programme management professional working primarily in the not-for-profit sector. She has over 20 years of experience working with charities, social enterprises, housing associations and similar organisations. Her achievements include successfully running a social enterprise for seven years,

attracting over £1m in grants and contracts, working with organisations to develop business plans, and managing projects as diverse as Ofsted preparation, CRM system implementation, office moves, organisational change programmes, Data Protection compliance and many others.

As a Prince2 Practitioner she has worked with enterprises to implement project management methodologies appropriate to the business and developed tools suited to their needs. Recently she has provided support to the development of a Social Impact Bond and worked with housing associations to improve data protection compliance and prepare for the implementation of the General Data Protection Regulation.

**Jacquie Elliott**, *Data Protection & Information Governance Lead, Metropolitan Housing Trust Ltd*

Jacquie is a BCS Qualified Data Protection Practitioner and ISEB qualified in information security (CISMP) with extensive experience in all aspects of information governance, including compliance with privacy legislation, information security and corporate governance.

**Stephanie Vasey**, *Data Governance Manager, Hanover Housing*

Stephanie joined Hanover in 2013 to introduce data governance and develop data protection practices across the organisation. She has nearly 20 years of data management experience, managing developers, analysts and overseeing key projects primarily in the charity fundraising sector. Her current focus

is ensuring teams adhere to the data protection principles, producing retention guidance and reviewing storage/archiving processes.

**Shaymoly Mukherjee**, *Data Governance Manager, Catalyst*

Shaymoly has over 8 years of cross-industry data analysis and data management experience. She is an experienced business analyst. She has worked within cyber, telecommunications, police and transport sectors. Shaymoly's specialisms include Business Analysis, Data Analysis, Data Modelling and Data Profiling.

**Simon Edwards**, *European Cybersecurity Architect, Trend Micro*

Simon is a Cyber Security Solutions Architect for Trend Micro's global Network Breach Defense team. He has worked in the IT industry since the late 80s and in security specifically for the last 20 years. Specializing in researching Ransomware, he was highly

involved in mitigation of the the recent WannaCry attack with the NHS.

**Amar Singh**, *CEO, Cyber Management Alliance*

Amar Singh has a long history and experience in data privacy and information security training. Amar Singh has served as CISO for various companies, including News International (now News UK), SABMiller, Gala Coral, Euromoney and Elsevier. Amar, amongst various other activities, is a Global Chief Information Security Officer and Trusted Advisor to a number

of organisations including a FTSE 100 firm and is chair of the ISACA UK Security Advisory Group.

**Chris Payne**, *Managing Director, Advanced Cyber Solutions*

With over 10 years experience in IT security distribution as a Senior Consultant and now as Managing Director of Advanced Cyber Solutions, Chris Payne worked with countless clients, varying from small enterprise to critical national infrastructure. Specialising in information security, Chris has spent the

last 24 months focussing on the GDPR. Both accredited and well-versed on the topic, he regularly contributes to webinars, panel discussions, speaking events and blogs in both the UK and Scandinavia.

Catalyst Housing may take photographs and other images for possible use in publicity and promotional materials. Please speak to a Catalyst staff member if you do not wish to be included.
