WISDOM OF CROWDS

WISDOM OF CROWDS SCHEDULE

08:30	Registration and Opening Remarks	
09:00	Protecting the Government - Lessons from the Frontlines	Speaker: Simon McCalla Nominet It's not every day the Government openly credits your performance and role in protecting it from the hostile cyber environment. Join Nominet as they share their lessons learnt from the frontline.
09:30	Myth or Reality - Using AI to Manage Unstructured Data.	Speaker: Barnaby Davies DocAuthority The presenter will discuss how AI can potentially be deployed to accurately identify information held in vast amounts of unstructured data, a previously un-manageable task for enterprise organisations.
10.00	Backtrack - Group Activity	We critique /review the past Wisdom of Crowds contributions and set the scene and agenda of the day. Highly interactive and engaging session. We kickstart the day with various engaging activities.
10.30	In the Trenches with a Major Breach - A Business Perspective	Speaker: Steve Struthers Cylance This presentation is geared to closing the gap between theoretical and realized risks. The events that will be presented will be anonymized and will focus on key learnings and interesting side effects, business interruption, and interaction with cyber and traditional insurance. We will review some of the techniques, tactics, and procedures used by adversaries, as well as some of the strategies employed during a crisis to get an organization back on its feet. This talk will serve not only as an informative look into the details behind the scenes of a major breach, but also as a tale of caution for those trying to avoid some common pitfalls.
11.00	**Coffee Break**	
11.30	Signature Brainstorm - Group Activity	An hour and a half of our highly acclaimed interactive sessions where the delegates lead the session, take part in solo and group activities. Led by Amar Singh and other leading volunteers in the room.

WISDOM OF CROWDS
