DIGITAL BUSINESS

THURSDAY 30TH MAY 2019  
SOFITEL - BKC - MUMBAI

CYBER MANAGEMENT ALLIANCE

Building a global community of like minded professionals.

# WISDOM OF CROWDS

## WISDOM OF CROWDS SCHEDULE

08:30	Registration and Networking	Coffee & registrations & Welcome Note
09:00	Automating your SOC to improve your threat management posture	<p>Speaker name - Avinash Prasad - VP &amp; Business Head, Managed Security Services - Tata Communications</p> <p>As it's often said, today's threat landscape is getting more complex than ever. Hence, it's no wonder that your team has its hands full in keeping up with the massive volume of alerts - they must identify, prioritize and address only the most critical part of the lot. Finding skilled people is the another concern. And what about the myriad security tools? Automating your SOC can help with this in many ways. Not only it help speed up the analysis &amp; response through automated play-books but tune the efficiency of the SOC though the right level of analytics and threat intelligence which can help reduce false positives.</p>
09:30	WoC - Group Interactive	Our highly acclaimed interactive sessions - delegates are tasked with multiple actions to be completed. Topics are revealed on the day.
10:30	Building a Cyber Resilient Program for Enterprise Email : A Holistic Approach	<p>Speaker name - Anoop Das Enterprise Manager - Mimecast</p> <p>Advanced, sophisticated or simple - however you classify a cyber attack fact, the fact is that the underlying reason the attack succeeds more often than not starts with the email. Organisations often ignore the email technology which focusing their budget and effort on other components in the wider technology stack. Join Anoop Das from Mimecast as he explores Resilience in Enterprise Email.</p>
11:00	<b>Coffee</b>	<b>Coffee</b>
11:30	Coodinating Your Defenses with Synchronized Security	<p>Speaker Name : Ashish Sud, Head - Western Zone, Sophos India &amp; SAARC</p> <p>"89% of IT Managers in India say malware threats are harder to stop compared to last year. Why? Because while cyber criminals increasingly connect multiple techniques in their coordinated attacks, point security products work in isolation. Synchronized Security enables your defenses to work together as a team to be more coordinated than the attackers. It combines an intuitive security platform with award-winning products that actively work together as a cybersecurity system. "</p>
