

**911 Emergency! We  
need a **CMMS**, urgently!**

**hippo**  
CMMS

**Maintenance department falling apart?**

**Too many equipment failures?**

**Work orders piling up?**

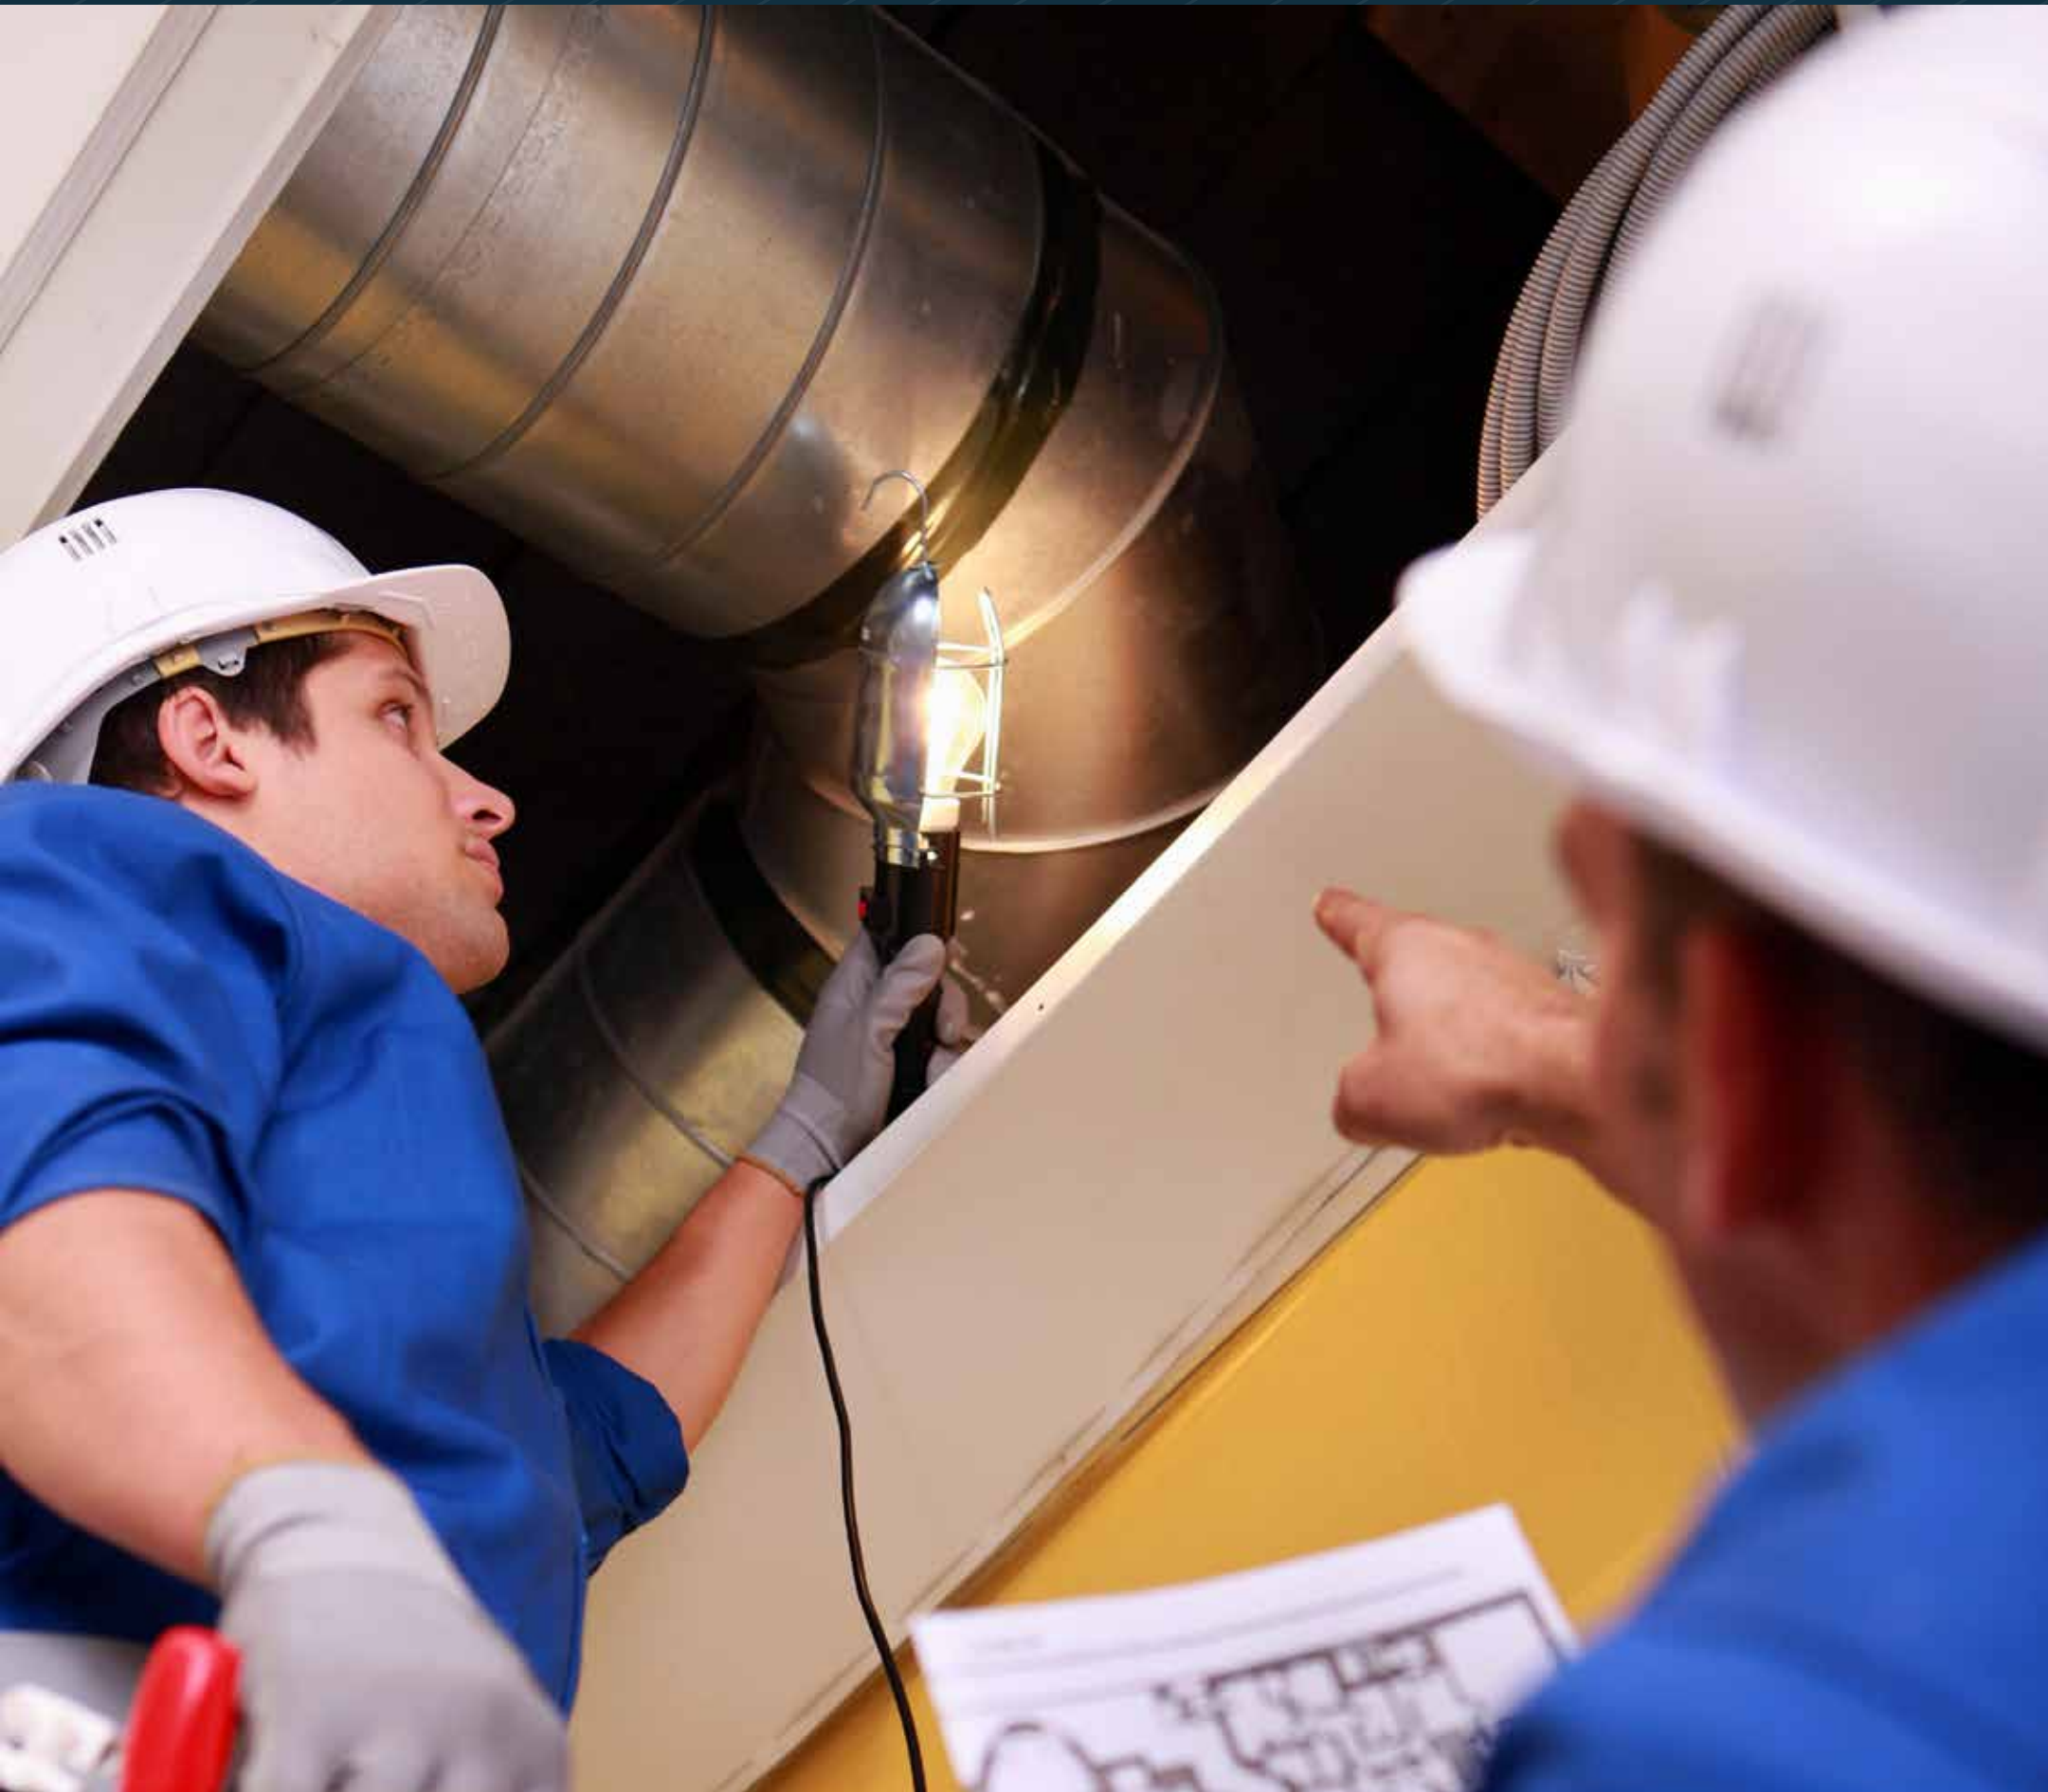

**Preventive maintenance not getting done?**

vs

**Which would you prefer?**

**Are other maintenance and facilities professionals **using a CMMS?****

**Well...**

80%

Use **spreadsheets** or **nothing at all** to track work orders, preventive maintenance and equipment.

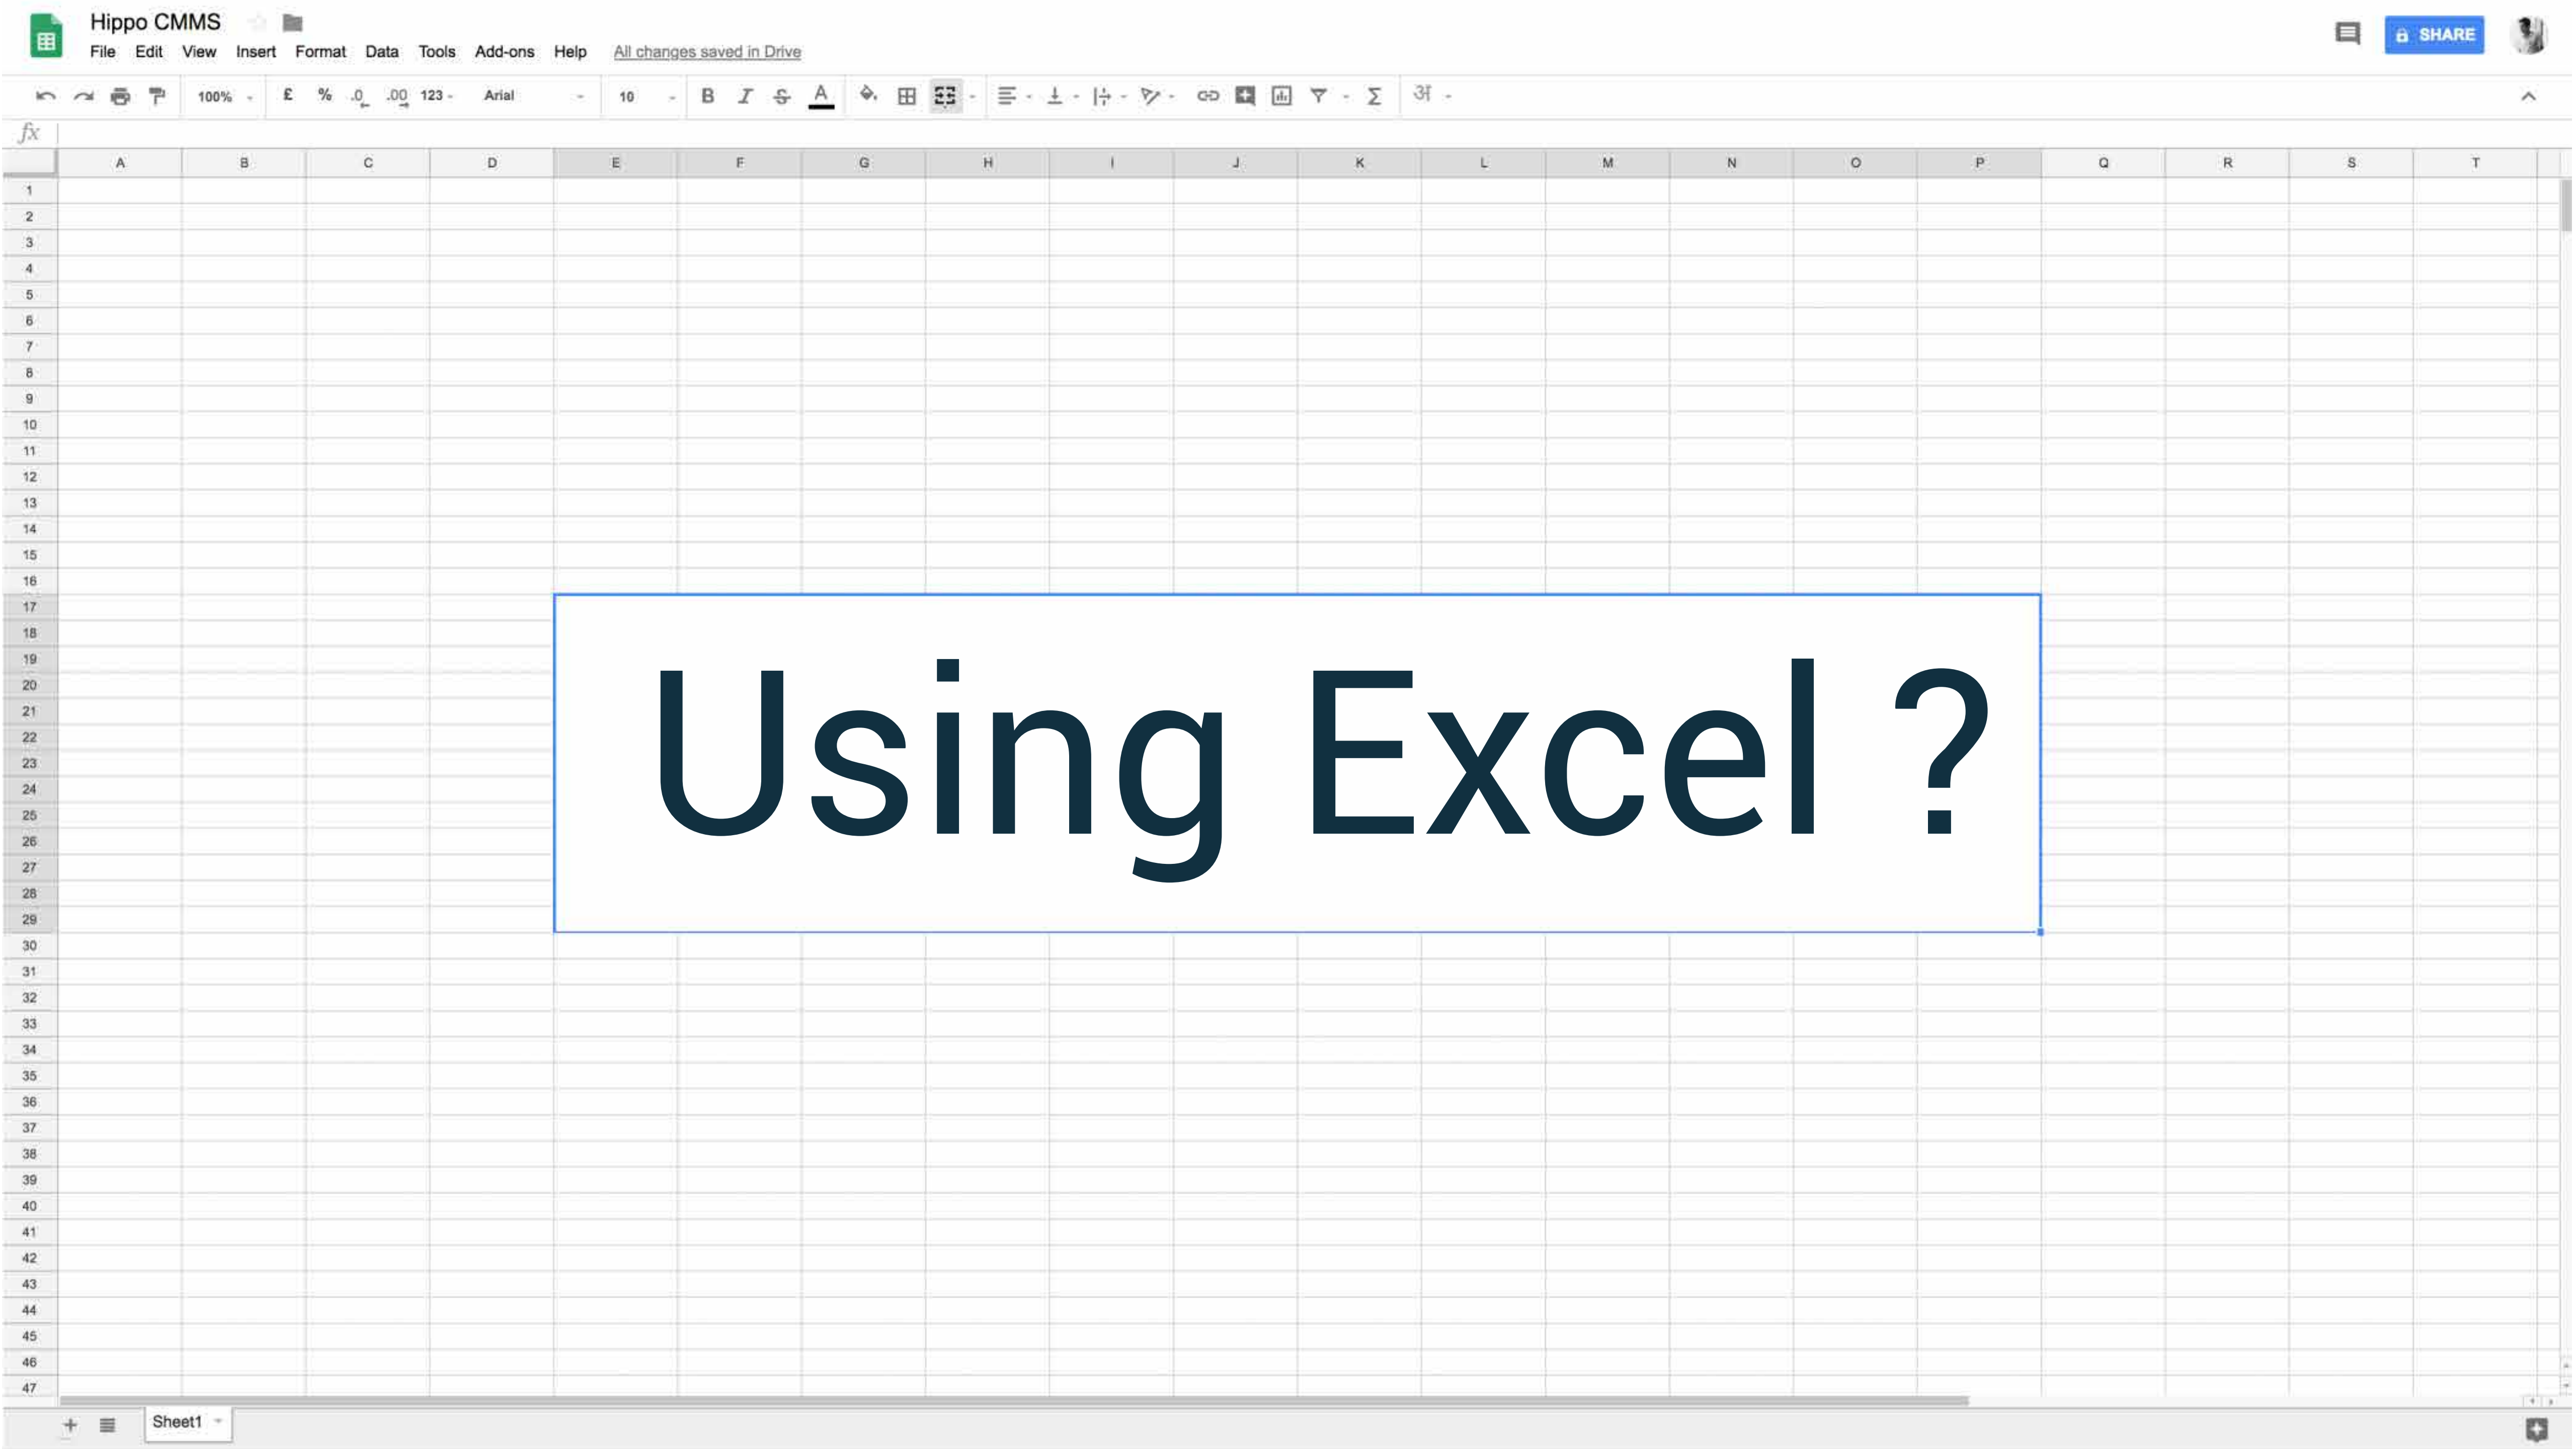

Using Paper?

**Disorganized ,Loss  
of data**

**Slow response time**

**No tools to make  
informed decisions**

**Bad for the company  
image – not eco friendly**

Using Excel ?

salesforce

**“88% of all spreadsheets  
contain mistakes that have  
caused multi million dollar losses”**

LOSS ▼

When stock market is down, market design  
can help you to see, understand, anticipate and  
control. Control your market with a solid, intelligent strategy.

Forbes

**“Why Excel reporting is bad  
for your business”**

**Harvard**

**“Economics study conducted by  
Harvard led to questionable  
calculations for global fiscal  
policy **due to spreadsheet errors**”**

# NO CMMS

Unfit For Agile  
**Business**

Time **Intensive**

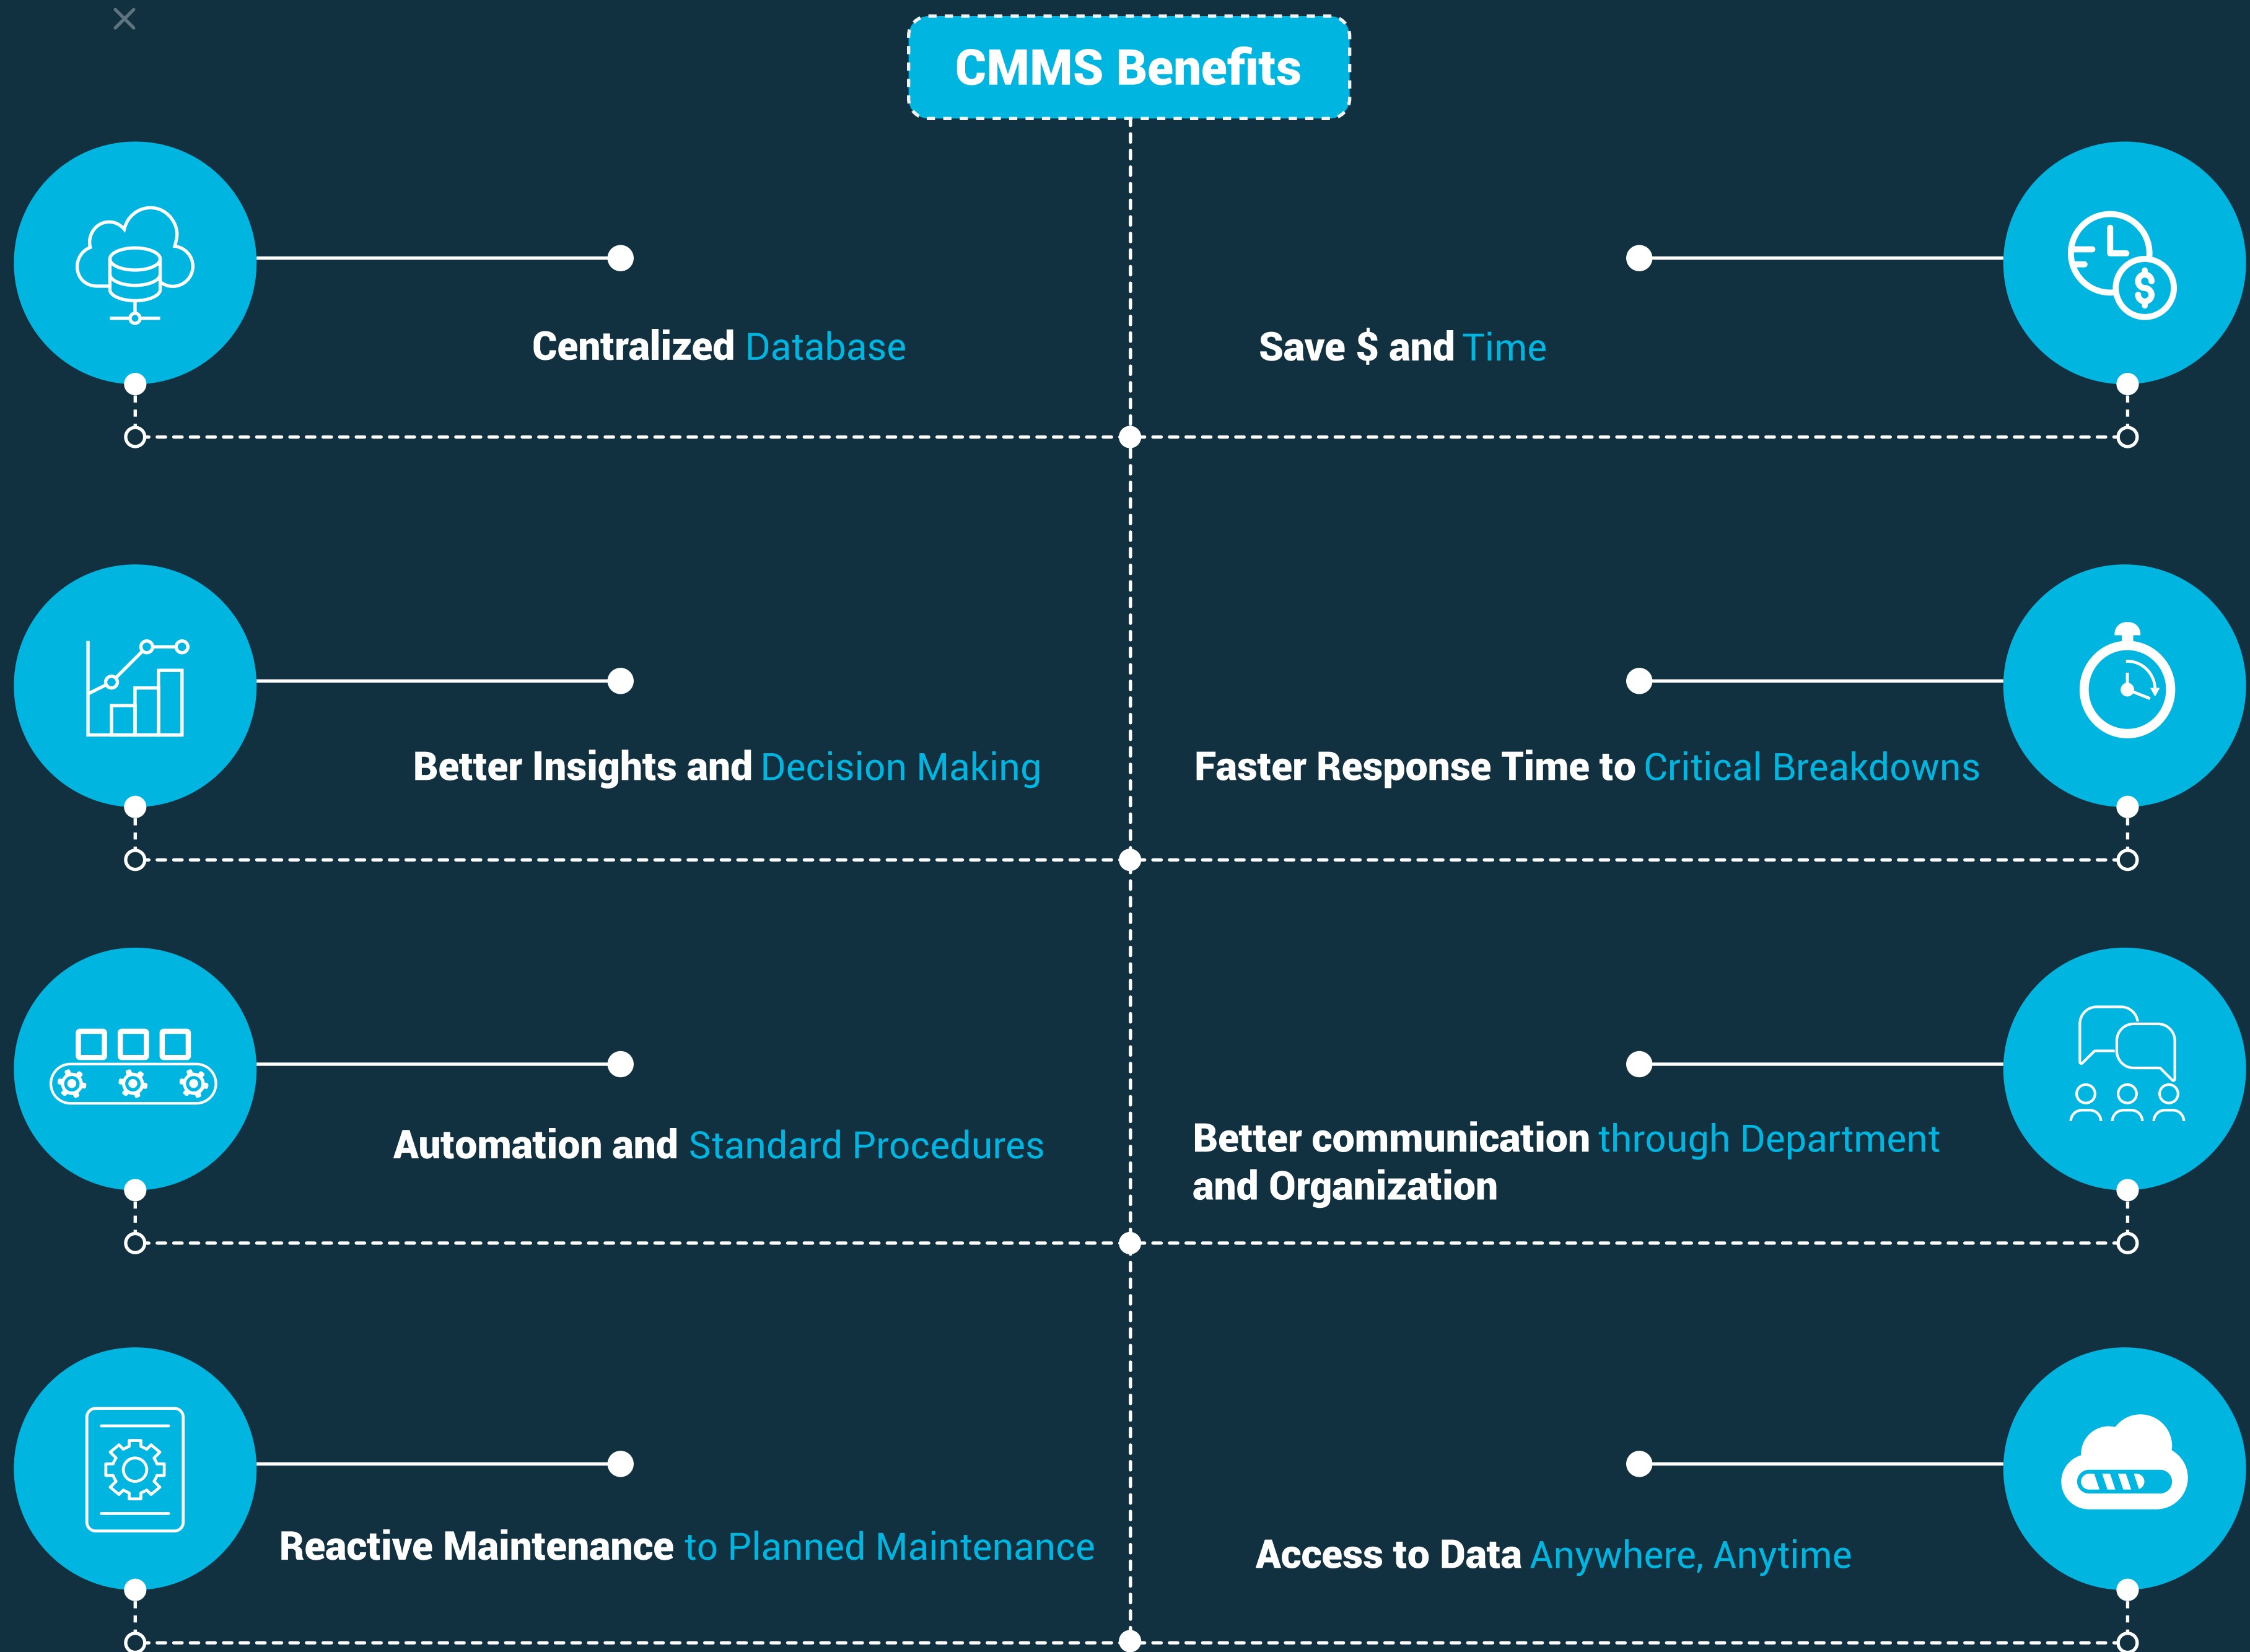

Prone To Errors = **Loss Of \$**

Labor **Intensive**
