

# FIELD NATION NAVIGATION UPGRADE

#### **Overview**

Field Nation's new navigation is easier to use and streamlines your ability to get work done. Create new work orders from every screen, view the status of active work orders in one place, and leverage meaningful reports.

### **Primary Navigation Menu**

a	ه	©	d
Work	Workforce	Manage	Insights
Gain realtime visibility into every stage of your work from creation to approval. Increase health, quality, and efficiency by creating, assigning, and tracking work.	Source, manage performance, and select quality talent. Organize your workforce with talent pools to easily and quickly deploy them.	Leverage tools necessary to increase your productivity at scale including project templates, location management, and custom labels.	Access actionable metrics on volume, spend, coverage, performance indicators.

#### f. + Icon

Access the quick create drop down. From here you can create new items. Access the *Quick Create* menu on every page.

### g. Profile Picture

Adjust your personal and company settings and view information about Field Nation.

## FIELD NATION NAVIGATION UPGRADE

## **Secondary Navigation Menu:** Flightboard

The *Flightboard* tab shows all active and in-progress work on one screen. View work order status, service provider updates, and at-risk work orders. Easily track all your work from this tab.

## **Secondary Navigation Menu:**

Talent

<b>–</b> C	२ + work	WORKFORCE	MANAGE INSIGHTS	<b>\$</b> 999.7 m	~2	<b>2</b> 2	P
Talent	Talent Pools	Recruitment	Training				

The *Workforce* tab shows the talent you have to choose from. Manage Talent Pools and easily determine coverage by skill set or location.

On the *Talent* page, you can view available service providers in the marketplace and add them to *Talent Pools*.

• What is a *Talent Pool*?

Talent Pools, formerly called Preferred Groups, organize potential candidates into custom pools so clients can easily access and source known service providers in the future. Create Pools based on skills, location, or job type. Clients use Talent Pools to streamline the sourcing process when creating new work.
