

Get Your Golf Cart Ready For Spring!

WITH THIS SPRING CLEANING CHECKLIST FROM GARRETT'S!

-
- SOAP UP AND HOSE DOWN YOUR GOLF CART.
Just be sure to avoid getting water on the electronics!

 - CHECK YOUR BATTERY, AND REPLACE IF NEEDED.
Clean the connections with baking soda and water. If you see serious corrosion or can't get your golf cart to start, you may need to replace the battery.

 - TAKE A LOOK AT YOUR TIRE PRESSURE.
If your tires have gone flat, you may be able to add some air to bring them back up to proper inflation.

 - ALWAYS CHECK YOUR BRAKES BEFORE YOU HEAD OUT FOR YOUR FIRST
Make sure your brakes work properly before you ever leave the driveway.

 - TIGHTEN LOOSE BOLTS OR SCREWS.
Just take a quick look over the frame of your golf cart, and if you find anything is loose, tighten it back up.

 - FOR ELECTRIC CARTS ONLY:
Check electrical components to ensure there is no sign of corrosion and that all electronics are working, including: reverse warning buzzer, accelerator, front

 - FOR GAS-POWERED CARTS ONLY:
Replace engine oil, change oil filter, check the fuel filter (and replace as needed), and take a good look at the starter belt for cracks.

 - TAKE A SPIN AROUND YOUR PROPERTY BEFORE YOU HEAD OUT ON THE GREEN.
Don't ever take your golf cart for a long ride off-property before you've gone once around the yard to ensure everything is working smoothly!

WHEN YOUR GOLF CART OR ATV NEEDS SERVICE, REPAIRS, OR JUST A QUICK TUNEUP,
