

Home Nursery's Rolling Rack Program

We deliver the majority of plant material on rolling racks. This decreases plant damage & increases speed of unloading.

Please secure the racks until a Home Nursery truck or another plant supplier belonging to Container Centralen can come by to pick them up!

Anyone picking up Container Centralen racks will have an identification card like the one pictured on the right.

BENEFITS OF ROLLING RACKS

- *Can be used for displays for short periods of time
- *Easy to move around
- *Can be stored outside
- *Can break down & stack to be stored in small spaces (Contact your sales rep for directions on how to do this!)

If the racks are still at your location after several weeks...

Please call us at **1-800-628-1966** or call Container Centralen at **866-498-9363 ext. 1**

Please do not dispose of racks!

Each rack is equipped with an RFID tracking device & are the property of Container Centralen. Unauthorized disposal may result in your company being charged the cost of the rack by Container Centralen.

Thank you,

Mike Becker
