SentryOne®

Monitor, Diagnose, and Optimize your clients' data performance

Let's satisfy the world's demand for faster data together

You've already gained the trust of your clients. Now prove your value every day, with deep, data-centered insights. By partnering with SentryOne, you get a cutting-edge platform to manage your customers' performance across physical, virtual, hybrid, and cloud environments. SentryOne helps data professionals provide reliable, effective management, plus deeper insights with actionable outcomes. It also reduces infrastructure costs and maximizes database speed and efficiency. Become your customers' hero every day. Join the SentryOne Global Partner Network.

## How SentryOne solves your customers' data challenges

Monitor for performance

Our Microsoft SQL Server performance monitoring automates the collection and visualization of key metrics and relevant events. Get visibility into vital performance information, problems, and risks in a single-pane-of-glass dashboard.

Diagnose for problems

SentryOne enables data professionals to easily determine the root causes of problems, such as slow queries, deadlocks, low disk space, and more.

Optimize for speed and efficiency

SentryOne delivers maximum efficiency with low overhead to the organization. You ensure database applications are running as fast and smoothly as possible.

Why SentryOne should be your next Data Solutions Partner

Provide valuable insights to support your customers

Advise customers on what's working and what's at risk. Leverage SentryOne expert training services to increase loyalty and become the MVP of your accounts.

Drive new revenue opportunities

Expand your offerings and create new, recurring revenue opportunities -- such as professional, retainer-based services, health-check engagements with customers, and more.

Increase your stature as an MSP

Differentiate your organization with deep technical expertise and increase your stature as a business advisor. Provide complete end-to-end solutions by partnering together.

Attributes of a SentryOne partner
We need to talk!

Do you have deep data platform expertise?

Do you have an established market presence and focus (geography, industry, other)?

Do you introduce partner technologies in your customer presentations?

Are you skilled at communicating and teaching technical concepts?

Do you have a desire to grow Microsoft and AWS-centric offerings?
