

Now your clients can access their finances on the go
ANYTIME, ANYWHERE

WITH THE NEW **RIGHT**CAPITAL MOBILE APP FOR ANDROID AND iPhone

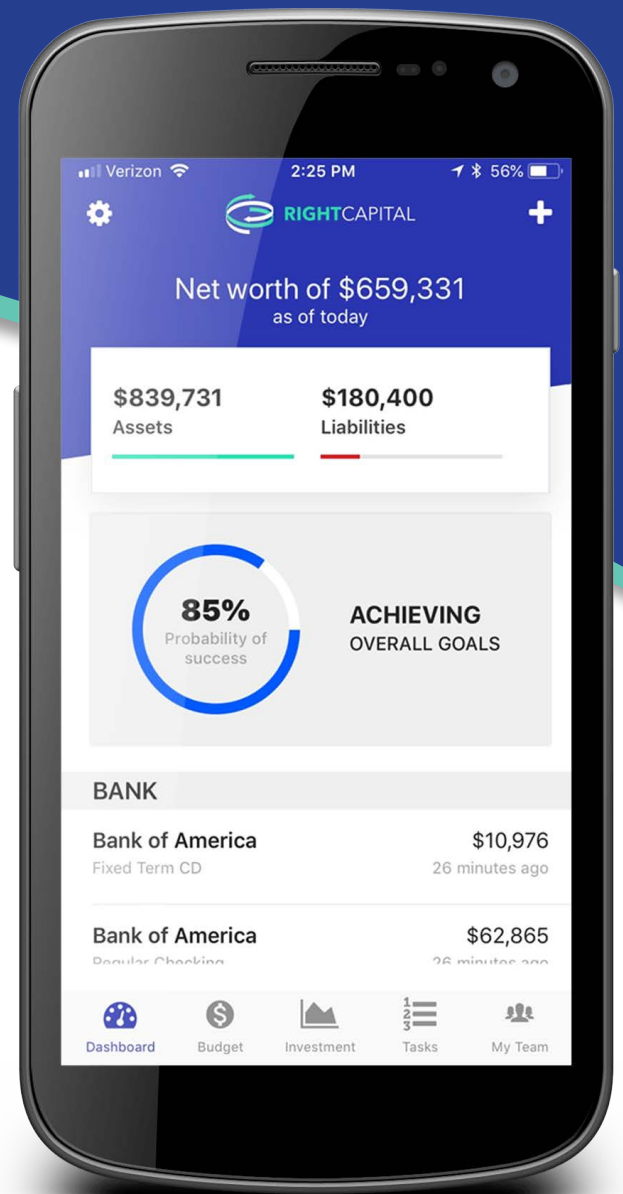

Your clients will be able to:

- Link accounts and view balances
- View their asset allocation
- Review budget and categorize transactions
- View their probability of success
- Receive notifications regarding upcoming tasks
- View your contact information

Your clients can download the app from the App Store or Google Play. But before they do, make sure:

- You've added and invited your client to the client portal
- They've set up their RightCapital account

Your client's access to features in the app will mimic what has been set up by you on the **RightCapital** platform.

**Want to learn more?
Book a demo today!**
