Looking for financial management assistance to offload administrative burdens?

Boost revenue using the innovative technology and billing expertise available in our NextGen Financial Suite software and managed services platform.

Let NextGen Healthcare experts manage all or parts of your revenue cycle. We:

- Analyze unpaid and underpaid claims assertively
- Follow up with insurance companies
- Monitor A/R aging and provide dashboard transparency
- Rework denied claims
- Maintain contact with insurance companies to ensure claims are settled as quickly as possible
- Assist with coding protocols to optimize billing process

“NextGen® Office allows the physician to queue up information in a more efficient manner. Now they can easily see all encounters and drill into the details. They love having better and more accurate information so they can make quicker decisions on how they’ll treat the patient.”

Dave Gibson, CEO
Centers for Foot & Ankle Care
