**Confined Space Entry
Entrant, Attendant and Supervisor Program
29 CFR 1910.146**

- Applicability:** All personnel who serve as entrants, attendants or supervisors in a permit-required confined space entry.
- Prerequisites:** None
- Frequency and Duration:** This training program requires 8 hours to complete.

Purpose and Overview:

Safety Training Services, Inc. presents a comprehensive program covering how to safely enter a confined space and/or serve as an entry attendant in accordance with regulatory requirements of the General Industry Standard and good management practices. This program takes up to 8 hours to complete. After attending this class participants will:

- Know the hazards that may be encountered during entry and the signs, symptoms and consequences of exposure.
- Know about the equipment necessary for safe confined space entry.
- Understand communication procedures and the importance of exiting the space when conditions warrant or an alarm sounds.
- Understand the entry permit and the information that must be listed or added as needed.
- Know about self-rescue and attendant rescue techniques.
- Understand the basis and basics of OSHA standard 29 CFR 1910.146.

Training Materials: Those attending this training program will receive a training manual, wallet card, and a certificate of completion.
