The Friedrich Design and Development Center provides certification testing in accordance to:

- AHAM Standards
- AHRI Standards
- ANSI Standards
- ASHRAE Standards
- DOE and Energy Star Standards
- ISTA Standards
- UL CDTP Requirements
- UL Safety Standards

EXPERIENCE ONE OF THE MOST TECHNOLOGICALLY ADVANCED HVAC LABS IN NORTH AMERICA

Get ready for a behind-the-scenes look at Friedrich’s new product testing facility.

Built to develop new product designs and test existing products, the DDC adds to Friedrich’s competitive advantage to rapidly deliver high quality, long lasting products.

957 Isom Road, San Antonio TX 78216
www.friedrich.com
Friedrich engineers and technicians use the advanced systems and facilities of the DDC to routinely conduct:

- Product performance testing
- Energy efficiency analysis
- Sound measurement
- Reliability and product safety testing
- Application testing at specified environmental conditions

**INTRODUCING the state-of-the-art**

Friedrich Design and Development Center (DDC)

An inside look at the DDC

1. **Calorimeter Test Chambers**
   - to analyze energy consumption and heating / cooling output

2. **Hemi-Anechoic Acoustics Chamber**
   - where indoor and outdoor sound tests are conducted in a free-field environment

3. **Rain Test Room**
   - to create an outdoor environment for electrical safety and product durability

4. **Training and Demonstration Room**
   - for Friedrich employee, partner and customer training

**OTHER TEST ROOMS AND LABS**

- Application Test Room
  - to test units in real world applications and environments

- Life Test Chamber
  - to test units in a highly accelerated manner to verify the products' expected life span

- Electrical and Electronic Testing Lab

- Calibration and Metrology Lab

- Model and Machine Shop
The Friedrich Design and Development Center provides certification testing in accordance to:

- AHAM Standards
- AHRI Standards
- ANSI Standards
- ASHRAE Standards
- DOE and Energy Star Standards
- ISTA Standards
- UL CDTP Requirements
- UL Safety Standards
