

# Professional Summary

## Sharon Taylor, CPHIMS

*Chief Clinical Informatics Officer*

*staylor@hapusa.com*

***Areas of Expertise: Patient-Centered Clinical Informatics, Clinical Systems, Project Management of Clinical System Implementations and Integration, EHR Adoption and Speech Recognition Training***

Sharon Taylor is the Chief Clinical Informatics Officer for Healthcare Administrative Partners (HAP). She joined HAP in 2016 to lead the Development and Information Technology Teams in the launch and growth of the company's Clinical Analytics Services. Sharon has extensive experience in the Healthcare and Healthcare IT industries managing and supporting large, fast-paced hospital and ambulatory care implementations from both vendor and provider perspectives.

She has designed and integrated electronic health record systems (EHR) with multiple clinical information software solutions to allow providers to have easier access to data needed during patient care encounters. Sharon understands the nuances of clinical data interoperability and the importance of integrated data solutions.

Sharon has been a HIMSS member for over 12 years and CPHIMS certified for 11 years. Her management and implementation of an Ambulatory Care EMR project for a large cardiology group helped win the 2008 HIMSS Nicholas E. Davies Award of Excellence, recognizing excellence in the implementation and use of health information technology.
