Steve Wells Joins DynTek as Vice President of Sales for Western Region

Newport Beach, CA – October 5, 2015 – [DynTek, Inc. \(DYNE.OTC\)](#), a leading provider of [professional technology services](#), today announced Steve Wells has joined the company as Vice President of Sales for the Western Region.

As Vice President of Sales, Wells is responsible for sales and go-to-market strategies in the Western United States. Prior to joining DynTek’s management team, Wells managed the Data Center and Cloud business for Presidio. Additionally, he has fulfilled engineering and sales management positions at Cisco over the course of 15 years. During his tenure at Cisco, he most recently managed the \$137M Public Sector business in the six states of the Pacific Northwest. Formerly, he ran Cisco’s Cyber-Security business within the Western U.S for Government, Commercial, and Enterprise organizations.

“DynTek has an excellent reputation among customers, manufacturers and the industry at large, and I look forward to joining the team in this leadership role,” said Wells. “We have a dynamic and talented sales and technical delivery team in the Western Region that is well positioned for fast growth.”

Wells has been working in the technology and security industry for over twenty-nine years. Prior to joining DynTek, he spent his career advising federal, state and municipal agencies, as well as the military and Russell 2000 companies in technology & business strategies and best practices.

“We are excited to have Steve join our organization and help lead our geographic, vertical and solution expansion in the Western Region,” said Ron Ben-Yishay, DynTek chief executive officer. “Steve is a proven sales leader, and has a strong track record of successfully delivering solutions in areas such as security, data center, collaboration and managed services.”

Forward Looking Statements

This press release contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Investors are cautioned that forward-looking statements made in this press release, involve known and unknown risks and uncertainties that could cause actual results to materially differ from the forward-looking statements. Such risks and uncertainties include, among others, our success in reaching target markets for services and products in a highly competitive market; our ability to maintain existing customers and attract future customers; our ability to finance and sustain operations, including our ability to comply with the terms of the revolving line of credit and the Company’s other existing and future indebtedness; our ability to achieve profitability and positive

cash flow from operations; our ability to maintain business relationships with IT product vendors; the size and timing of additional significant orders for our products and services and our ability to fulfill such orders; the continuing desire of state and local governments to outsource to private contractors and the availability of budgets to place orders for our products and services; our ability to retain skilled professional staff and certain key executives; the performance of our government and commercial technology services; and the continuation of general economic and business conditions that are conducive to outsourcing of IT services. We have no obligation to publicly revise any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.
