

# HOW DYNTEK CAN DELIVER YOUR CLOUD STRATEGY WITH MICROSOFT AZURE

**Microsoft Partner**

- Gold Cloud Platform
- Gold Cloud Productivity
- Gold Datacenter
- Gold Communications
- Silver Devices and Deployment
- Silver Messaging
- Silver Collaboration and Content

The cloud is transforming business and IT in many ways, but primarily it is enabling organizations to create an extensible and uniform IT environment. This is driving simpler IT that delivers on business demands in any situation, and supports future growth. **The Cloud is essential to the modern business: data is growing 3x faster than compute capability.**

## WHEN IMPLEMENTED CORRECTLY, THE CLOUD DRIVES CHANGE THAT IMPACTS YOUR BUSINESS:

*Transforms large CapEx hardware purchases into OpEx costs*

*Creates a more predictable & scalable IT budget*

*Builds a software-defined foundation that reduces complexity*

*Delivers services rapidly, simplifies management & meets business demands*

*Scales easily with a consistent experience every time*

## EXECUTE AGAINST YOUR CLOUD STRATEGY WITH MICROSOFT AZURE

**MORE THAN 57% OF THE FORTUNE 500 USES MICROSOFT AZURE, AND ON AVERAGE 1,000 CUSTOMERS ARE SIGNING UP EVERY DAY.**

Microsoft Azure

Whether you are looking for ways to **enhance your business productivity**, map your path to a cloud platform, support your mobile workers or create a migration plan away from Windows 2003, **Azure provides a consistent infrastructure to:**

### MODERNIZE YOUR INFRASTRUCTURE

#### Migrate for Application Innovation

Build modern applications that span disparate clouds while meeting the requirements of the mobile workforce.

#### Move Past Windows Servers 2003

Upgrade from Windows Server 2003 and gain the business benefits of a modern platform, and options for innovations.

#### Upgrade for Platform Improvements

Get the best of both worlds: the benefits of a modern platform combine with built-in options for cloud innovation.

### TRANSFORM & EXTEND YOUR DATA CENTER

#### Build a Software-Defined Foundation

Reduce complexity and cost of the on-premises data center with enterprise-grade virtualization and new approaches to storage and networking.

#### Automate & Secure Your Infrastructure

Deliver services rapidly and simplify management with a unified toolset—and automation capabilities.

#### Extend to the Cloud on Demand

When you need additional capacity, easily extend your existing environment with a consistent experience across cloud and data center to meet your unique business.

#### Business Continuity

Have a requirement but don't want a secondary data center? Do it cheap, easy and quick.

### PROVIDE ENTERPRISE-LEVEL MOBILITY

#### Microsoft Enterprise Mobility Suite

Provide Cloud-based mobile management system built around user identity.

#### Employee Productivity

Allow access anywhere, on any device with authenticated access to apps and data.

#### Simplified Management

Simple, remote device management across any platform.

## MOVE FROM CLOUD STRATEGY TO CLOUD ACTION

Not too long ago, most organizations had a Cloud strategy with **NO BUDGET**

Now, most organizations have a Cloud Budget, but **NO STRATEGY**

The next step is aligning your Cloud Budget to your business strategy & finding opportunities for **the best ROI & end-user experience**

### WANT TO ALIGN YOUR CLOUD STRATEGY WITH YOUR BUSINESS STRATEGY? LET DYNTEK HELP.

With Microsoft Azure, DynTek can help you create a path to the cloud that supports business continuity and provides predictable IT budgets, leading to an "always on" IT experience.
