

Microsoft Capabilities

PROVIDING A COMPREHENSIVE RANGE OF OFFERINGS TO SUPPORT YOUR MICROSOFT PLATFORMS

Whether you are looking for ways to enhance your business productivity, map your path to a cloud platform or support your mobile workers, DynTek has the industry and technology expertise and resources to get the solution you need and the results you're after.

As a Microsoft Gold Certified National Solution Partner, DynTek provides a comprehensive range of offerings to support your Microsoft platforms, including strategic planning sessions, workshops, assessments, proof-of-concepts, deployments, and support services. We create and implement solutions that focus on helping our customers realize the greatest value from their existing Microsoft software investment. In addition, DynTek helps our clients take advantage of Microsoft incentives and funding programs available to support the deployment of new technologies.

Microsoft Offerings >>>

Azure One-Day Bootcamp >>>

AN INTENSIVE, INTERACTIVE BOOTCAMP THAT PACKS WEEKS OF LEARNING INTO ONE DAY

Experience the comprehensive solution from vision to reality.

In today's security-first, cloud-first business environment, enterprises and government entities are turning to Microsoft Azure as their trusted cloud to spin up virtual machines in minutes; provide scalable and durable cloud storage, backup and recovery solutions for any data, big and small; create single sign-on to any cloud app and enforcing multi-factor authentication – just to name a few. Start with DynTek's Azure One-day Bootcamp and leave with the tools to envision a cloud strategy for your organization leveraging Azure.

INCLUDES:

- > Cloud Vision
- > Azure Primer
- > Azure Demonstration
- > Hands On Lab Session

Microsoft 365 Value Discovery Workshop >>>

A FREE, NO-STRINGS ATTACHED ASSESSMENT

Our team Microsoft consultants review and evaluate the impact of Microsoft 365 in your environment.

During our Microsoft 365 Value Discovery Workshop, we will review the capabilities and security measures within Microsoft 365 to transform your business and your return on investment. We'll review the process, tools and actions you can leverage to extend the value of your Microsoft 365 experience and review your environment for security vulnerabilities and concerns.

INCLUDES:

- > Licensing Review
- > Enterprise Mobility + Security
- > Back-up & Storage
- > Security
- > Email & Identity
- > Collaboration & Enterprise Social
- > Windows 10
- > BI & Data Management
