

Microsoft Intune Proof of Concept & Workshop

ENABLE SECURE MOBILE PRODUCTIVITY

As mobile devices continue to proliferate in our business environments, IT departments are faced with management and security challenges for a diverse mobile ecosystem. DynTek's Microsoft Intune Proof-of-Concept & Workshop will help your organization define a mobile management strategy that fits the individual needs of your organization. We will showcase how to apply flexible mobile device and app management controls that let employees work with the devices and apps they choose while protecting your company information.
