

# POWERING YOUR **HEALTHCARE JOURNEY** THROUGH TECHNOLOGY

## LEVERAGING DYNTEK'S **PARTNERSHIP WITH CISCO**

Meeting the expectations of all healthcare stakeholders requires leveraging the latest in technology. Patients, clinicians, technology managers, and business leaders have a diverse set of needs with a common goal: enabling a secure, digital environment that improves communication, drives efficiency, minimizes costs, and most importantly, delivers high levels of patient care.

### THE DYNTEK/CISCO PARTNERSHIP PROVIDES SOLUTIONS TAILORED TO EACH OF YOUR STAKEHOLDERS

Cisco leading products, solutions, and architectures combined with DynTek's industry-leading expertise in advanced networking, security, data center, collaboration, and communications provide you with the innovative solutions your healthcare organization needs.

SOLUTIONS

1

#### ENHANCE YOUR PATIENTS' EXPERIENCE

In today's always on, always connected world, patients want to be treated like consumers and to enjoy the same benefits provided to them in other areas of their life. Technology can make that happen.

2

#### EMPOWER YOUR CLINICIANS TO DELIVER SUPERIOR CARE

Healthcare is no longer delivered in one place by a single provider. To provide the best care, clinicians want to take advantage of the best possible expertise regardless of location. Technology allow this to happen.

3

#### ENHANCE SECURITY AND COMPLIANCE

Cyber threats in a healthcare environment can originate in the network, medical devices, or careless internal staff. Protecting your systems requires a strong, simple, automated defense.

4

#### MANAGE COSTS THROUGH STREAMLINED OPERATIONS

Healthcare leaders are constantly faced with budget constraints. Making the right technology decisions increases productivity and maximizes available resources.

As a Cisco Gold Partner, we have deep expertise in Cisco products, solutions, and architectures. Your DynTek team can help customize the right solution for you to optimize your healthcare operation and ensure you deliver the best, most productive experience for your patients, clinicians, technology managers, and business leaders.
