The STANLIB Top 40 ETF consists of the shares that constitute the FTSE/JSE Top40 index of the Johannesburg Stock Exchange. This is an index of the largest 40 shares by market capitalization, listed on the JSE, after adjusting for free-float. The fund aims to replicate both the capital and income return of the index by holding substantially all of the shares in the index according to their index weighting

**STANLIB****ETF****SWIX Top40**

The STANLIB SWIX 40 ETF Consists of the shares that constitute the FTSE/ JSE SWIX 40 index of the JSE. This index differs from the Top40 index in that it only considers the free-float market capitalization of the company that is held on the JSE register. This means that the dual-listed shares are down-weighted relative to the Top40 and it is thus considered to be more representative of the universe of shares available to South African investors.
