

# Rekeying:

## The Hidden Cost of Grocery Store Turnover

Think about how many doors there are in a typical grocery store. With a higher employee turnover rate than almost any other industry, the constant need to rekey every time a staff member leaves can be a massive financial strain.

## The Magnitude of Turnover

Turnover in the grocery industry is **OVER 60%**

Grocery industry managers **QUIT THEIR JOBS** at a rate of 20%

## What it Costs to Feel Secure

It costs approximately \$200 to rekey a front door with 5 keys.

An average supermarket has 17 doors and 5 master keys. When 1 master key is lost, rekeying costs can climb as high as \$1,068.

## Rekeying Costs with InstaKey

**InstaKey clients reduce rekeying events by 50% on average!**

- **\$36** to rekey a front door with 5 keys
- **\$47** to rekey an average supermarket master key with InstaKey
