We all encounter life events that require the verification of our employment or income by authorized parties. The Work Number is an automated service that accelerates this process by providing verifiers/requestors (“Verifiers”) —including mortgage and automobile lenders, credit card companies, property managers, public assistance agencies and others—your employment or income information<sup>1</sup> instantly. Available 24 hours a day, 7 days a week, more than 200,000 fully credentialed Verifiers utilize The Work Number during their decision-making and account review processes, and because your payroll information is in the system, you can receive services and benefits faster.

#### **Here's How It Works**

- 1.** When you apply for credit or other services that require proof of employment or income, you typically give your **consent** to have the information on your application verified.
- 2.** The Verifier (who must first prove their legitimacy by passing a credentialing process) logs into the system and uses information that you have provided, such as your Social Security number and name of employer, to locate your information in the database.
