

# Succeeding with a Learning Difficulty

You are invited to a talk by  
LYNN DEGELE

At **PARK PLACE BRASSERIE**  
On Thursday 15<sup>th</sup> March 4pm

Lynn was Officially diagnosed with Dyspraxia and Attention Deficit Disorder in 2012, and has been learning and implementing strategies to manage her challenges and harness her strengths. Come and hear Lynn talk about her experience of recognising and being diagnosed with a learning difficulty and how she is sharing her experiences to help spread the word and encourage those with learning difficulties to become their best selves and for those without learning difficulties to understand that knowing what is different about a person can help them succeed.

*What do Richard Branson, Albert Einstein and Michael Phelps all have in common? They have all overcome the challenges of a learning difficulty to succeed in their chosen fields. 10% of all people have a learning difficulty, such as Dyslexia, Dyspraxia, Attention Deficit Disorder. Undiagnosed, and untreated, it can impact your ability to progress, to manage your life and even impact your relationships with other people.*

This is a talk for anyone with a learning difficulty, anyone who knows someone with a learning difficulty or anyone who wants to know more.
