

How To Find A Saved Enquiry

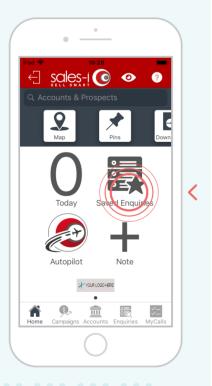

Apple / iOS

Viewing a saved enquiry is a quick way to pull up sales data for the customers or products that matter the most to you. This is especially helpful if it takes several steps to get to the sales you'd like to see.

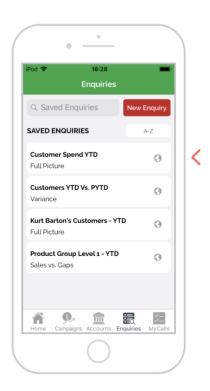

If you are on the Home page, you can access all your Saved Enquiries from the Saved Enquiries tile.

Your Saved Enquiries are grouped in alphabetical order. Tap on the desired enquiry from the list to load the results.

02 ENQUIRIES SCREEN

Tap on your chosen saved enquiry from the home page or Saved Enquiry section to load it.
