

# HOW TO USE THE MAP FEATURE

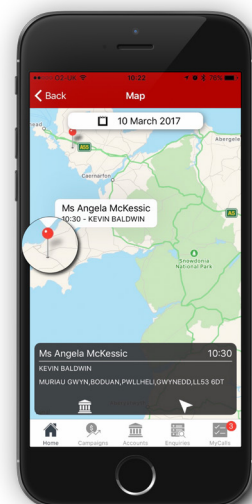

The Maps feature allows you to view the location(s) of your interactions on a map, based on your planned diary using the MyCalls section of sales-i.  
This feature is currently only available on iOS device.

- 01** Once logged into sales-i, on the home screen, touch the MAP icon in the top left corner

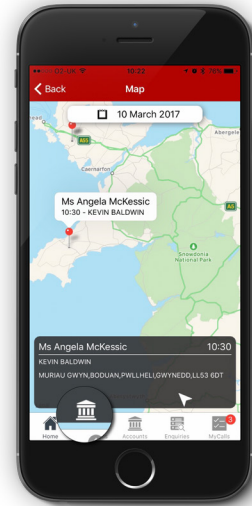

- 02** Select the date you wish to view the upcoming interactions from the scroll selector. The interactions must be present in your MyCalls diary.

- 03** Touch onto a Pin to see the further information on this planned interaction.

**04** Touch the Accounts icon to view the accounts section for the chosen interaction.

**05** Press the Journey icon to view an estimated travel time and distance from your current location to the selected destination

\*Please note, you must have the location settings enabled on your iOS device to utilise this function

**06** On this screen you can use the Go button to use this information within the default mapping functionality of your iOS device to navigate to the destination point.

\*Please note, this will take you out of sales-i app and into the default mapping app of your iOS device.
