

HOW TO RUN A DIAGNOSTICS REPORT AND SEND IT TO SALES-I

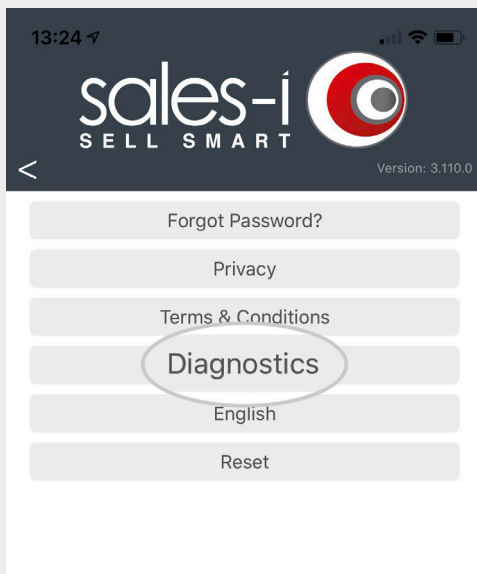

If sales-i isn't working quite right, you can run a diagnostic report and send the results to sales-i.

and Password.

Customer Mode

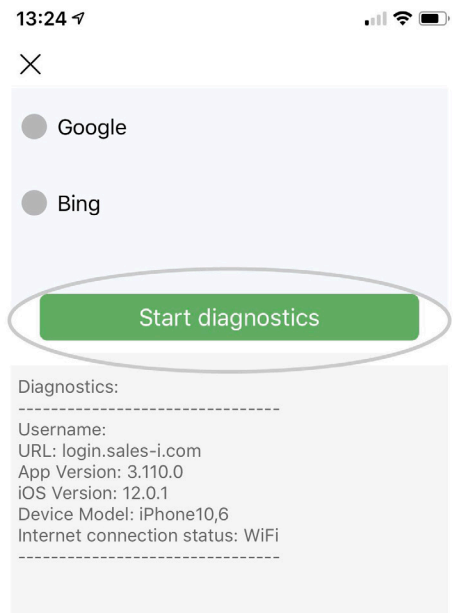

Forgot Password?

01 From the sales-i home screen, tap the **i icon** in the bottom left corner.

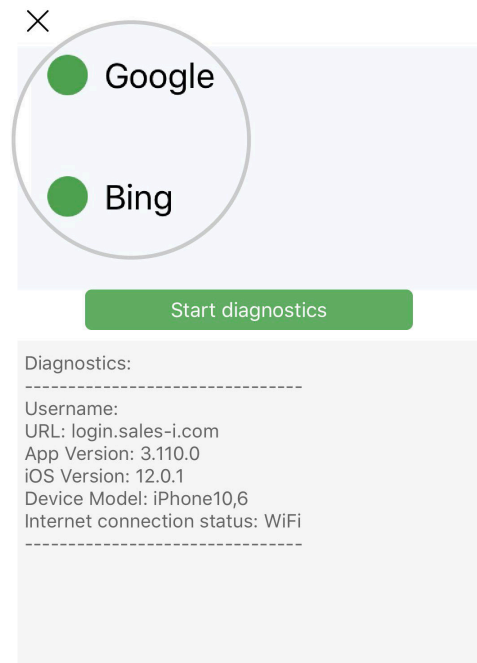

02 Tap **Diagnostics**.

03 Tap **Start Diagnostics**.

04 The app will first go and check to see if you have internet access. If the Google and Bing steps go red it means that you're not connected to the internet.

Username:
URL: login.sales-i.com
App Version: 3.110.0
iOS Version: 12.0.1
Device Model: iPhone10,6
Internet connection status: WiFi

Send to sales-i support

05 You can also send your results and a description of the issue to the sales-i support team for additional assistance.

Simply tap **Send to sales-i support**.

06 This will open up your email application.

Please type any additional information about your issue here and tap **Send**.
