

How To Add A Second Dimension

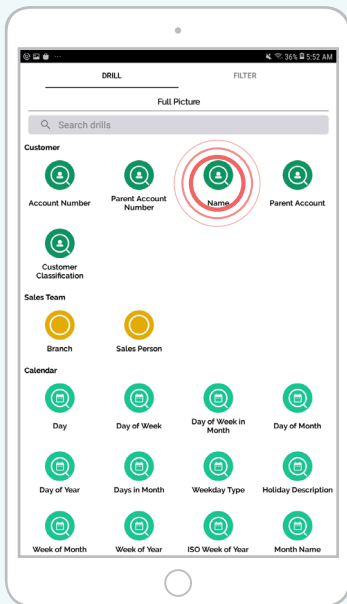

Android

A new feature to sales-i enquiries, is the ability to add a second dimension to your reports. This allows users to add an extra informational field to the reports that are created.

01 DRILL

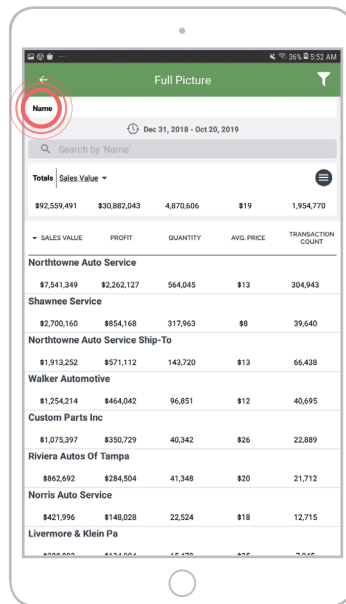

To add a second dimension, you must drill into the first part of your report.

In this example, tap on the Name bubble.

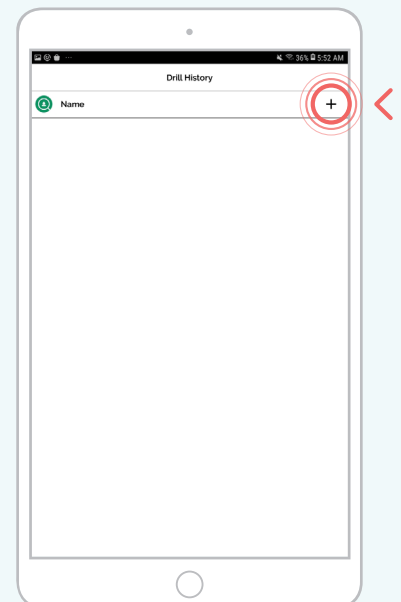

02 DRILL TRAIL

From your Name bubble results page, tap on the drill trail box (just above the date).

03 GO TO SECOND DIMENSION

Tap on '+' symbol to view available Second Dimension bubbles.

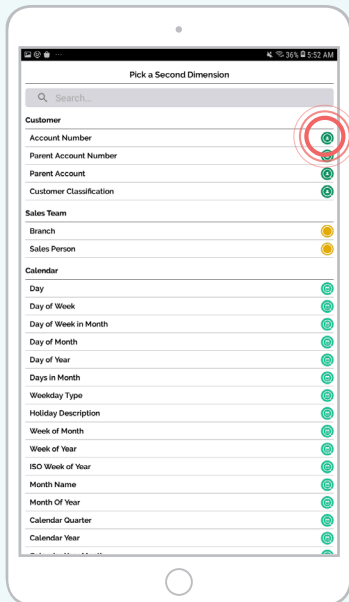

04 SELECT BUBBLE

Scroll down the list to find the bubble you need, or you can search the name of the bubble by tapping in search box above the bubble titles and type the name of the bubble you need.

Tap on the Second Dimension you want to apply to your data.

In this example, tap on the Account Number bubble.

05 RESULTS

You will be delivered your data with the Second Dimension included.

Name/Account Number	Sales Value	Profit	Quantity	Avg. Price	Transaction Count
