

Junior Associate - Job Description

About Mu Sigma

Mu Sigma is the world's largest **Big Data Analytics and Decision Sciences company**, helping enterprises systematize better data-driven decision making. The company's interdisciplinary approach and integrated ecosystem of people, processes and platforms are redefining how companies approach problem solving in areas of marketing, risk and supply chain. With more than 3,500 decision scientists working across industries ranging from airlines to healthcare to retail to technology & media, and so on, Mu Sigma is the preferred decision sciences and analytics partner for over 140 of the Fortune 500 companies.

Basic Qualification

If you are a recent graduate with a bachelor's degree in any of the majors, such as, Business, Statistics, Economics, Liberal Arts, Engineering or Science, you can apply for a role in Client Services.

What you will do

You will be working in Client Services

Our client's work will create a variety of challenging opportunities for you, ranging from analyzing the chemical backings of pharmaceutical drugs, to optimizing the global supply chains of consumer product companies, to helping banks turn fraud detection into improved consumer experiences. You will be assigned to a client location and work as a member of the globally distributed Mu Sigma team. You will be the conduit between the client and the delivery team in India. Establishing communication will be a major focus of your role.

You will:

Engage with clients to understand their business challenges

Gather client requirements and provide context to the offshore teams based out of Bangalore, India

Experience working in a global delivery model alongside offshore teams to solve data-intensive problems

Present the results of the work to the client's senior management, offering actionable insights and recommendations that lead to measurable business impact

Build relationships with clients, helping them improve their consumption of analytics to drive their business operations and decision-making

Junior Associate - Job Description

What are we looking for

At Mu Sigma we look for those who have an open mind to learn, experiment, interact and network.

In addition, we look for:

Curiosity: A questioning mindset, childlike curiosity, and a hunger to learn

Insight: An ability to comprehend business problems, offer actionable insights and recommendations to help drive measurable business impact

Engagement: Understand the right way to engage with internal and external stakeholders to help enterprises make decisions and achieve end goals

Grit: Profess passion and perseverance to achieve goals, stay the course and not give up until a given mission is accomplished

What you will gain from the experience

AUTONOMY

We encourage you to be an entrepreneur, pioneer, and problem solver with irreverence towards the status quo. You will participate in experiential learning environments, helping top global brands solve tough problems. You will also be trained by experts in personal and leadership skills needed for your role.

MASTERY

We invest in building your interdisciplinary skills in the growing field of analytics and decision sciences. Engaging with and rotating across our cross-industry client base will broaden your perspectives even more.

GROWTH

Fast track your career. Engage with top executives and drive your own business engagement within your first 3 years.

EXPOSURE

Learn valuable business principles from across our diverse cross-industry client base, understand their problems, and help architect the solutions.

PURPOSE

We help you participate in something bigger than just you - the purpose of inculcating the new art of problem solving for our clients.

The value you will gain from training for and working as a Client Services professional with Mu Sigma will go far beyond helping you learn the ropes and effectively executing your responsibilities. It will give you a substantial edge over your peers and make you ready for the jobs of the future. It's going to be a thrilling journey to see yourself evolve into who you really want to be. No matter who you are, what you have studied, **we are going to make you an extreme self-starter.**

Program for Global Associates

Start your journey with an India Immersion Experience

India has transformed into a rich source of talent, ideas, and innovation, and the India campus is our hub for innovation, scale, and automation. We have established the Program for Global Associates as a part of Mu Sigma University, bringing new hires across the globe to Bangalore for a period of 9 months. The curriculum combines an immersive workshop-based learning with on-the-job mentoring, both of which help to educate the new associates, and expose them to the Mu Sigma ecosystem.
