# All-on-4<sup>®</sup> treatment concept Science First

### Original

The original graftless full-arch solution on four implants.

#### Proven

The proven long-term solution.

#### Life changing

The solution that changes your patients' lives and grows your practice.

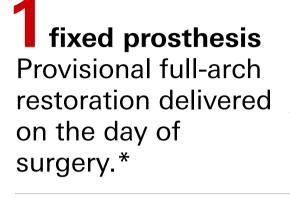

## Original

The original graftless full-arch solution on four implants.

#### The All-on-4<sup>®</sup> treatment concept

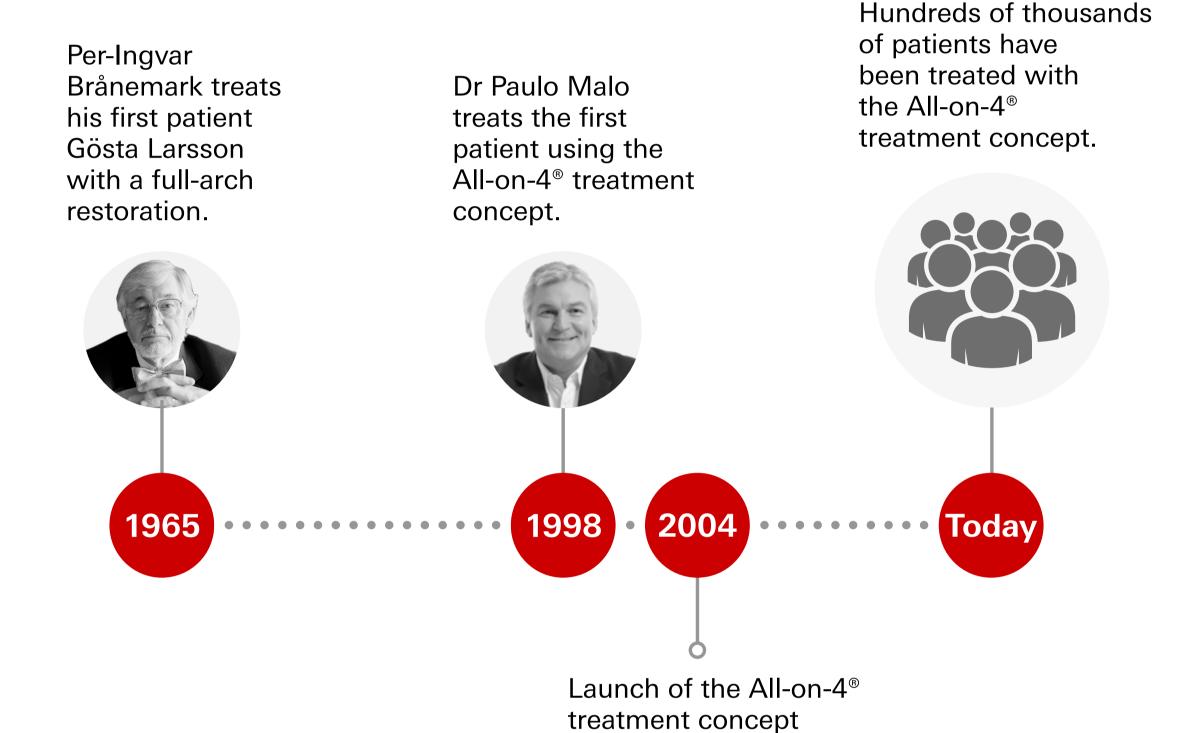

implants Two straight in the anterior, two tilted in the posterior.

surgery No time-consuming grafting procedures. In a patientcentered approach, the aim should be to avoid more invasive procedures, such as grafting, when a more limited number of implants offers the same reliable long-term outcome.<sup>1</sup>

 $\boldsymbol{\boldsymbol{\lambda}}$ 

\* For patients meeting criteria for immediate loading of implants.

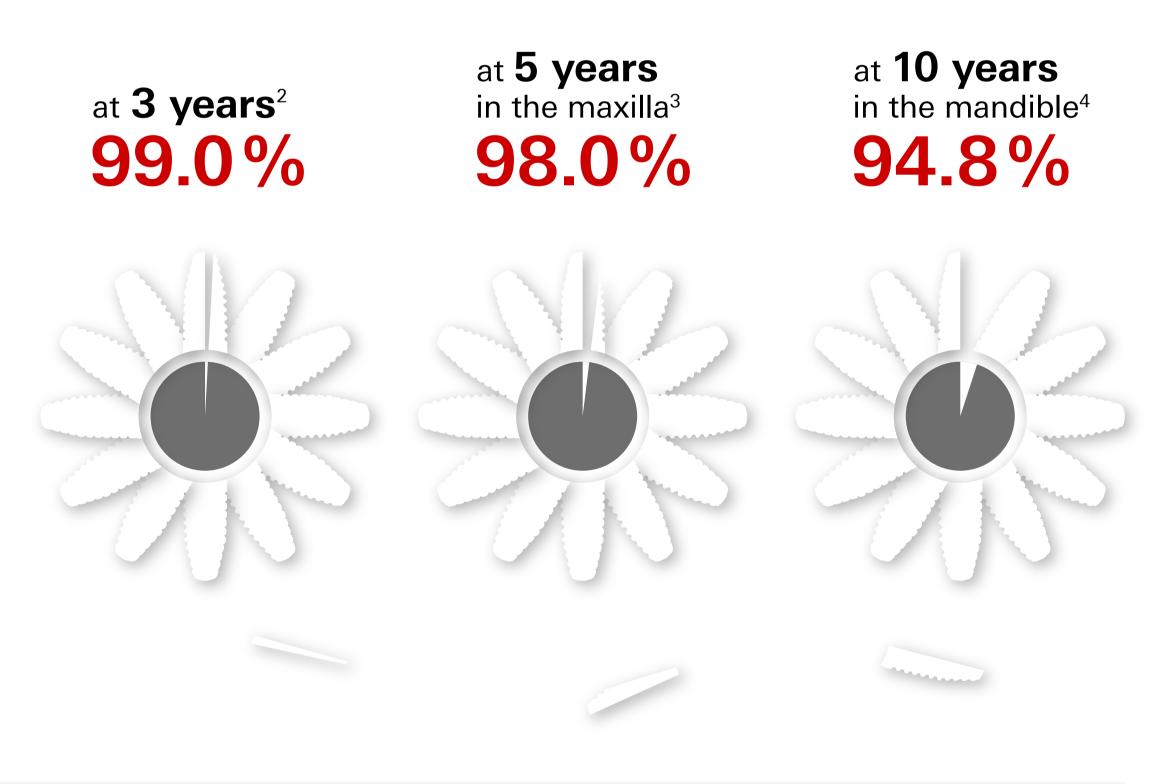

From the pioneer in full-arch restorations

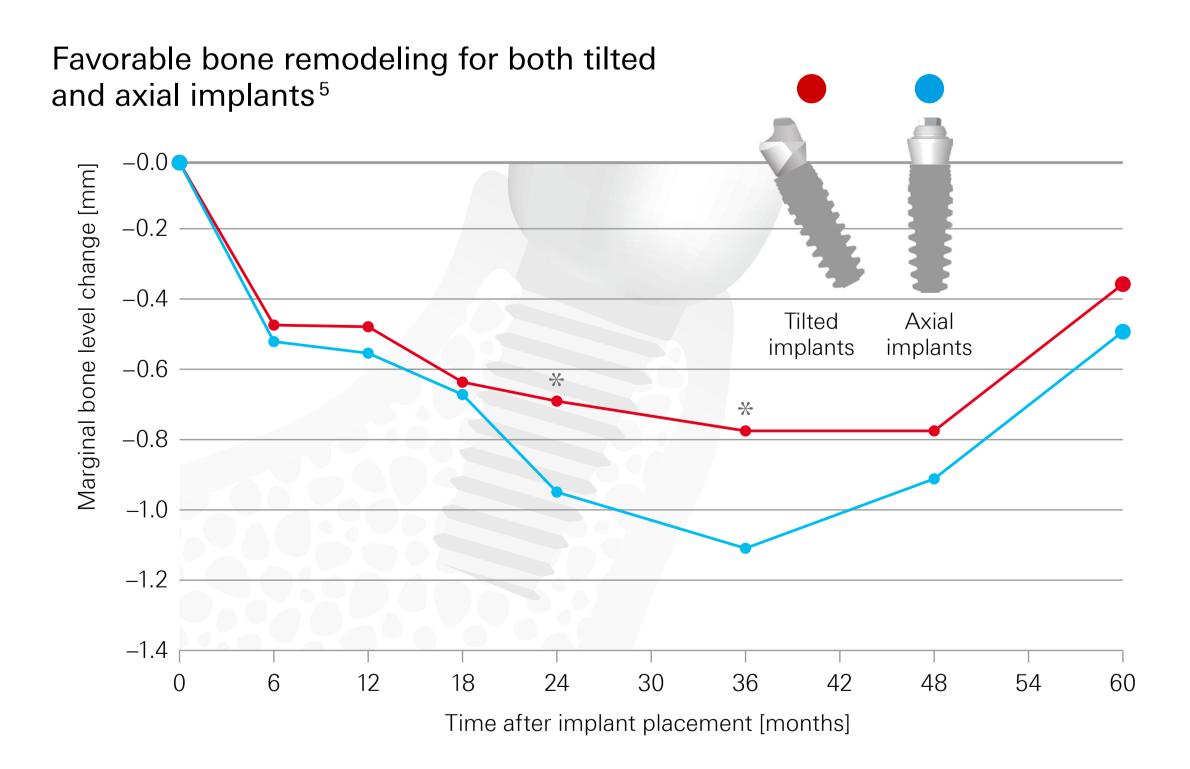

### Proven The proven long-term solution.

#### High survival rates

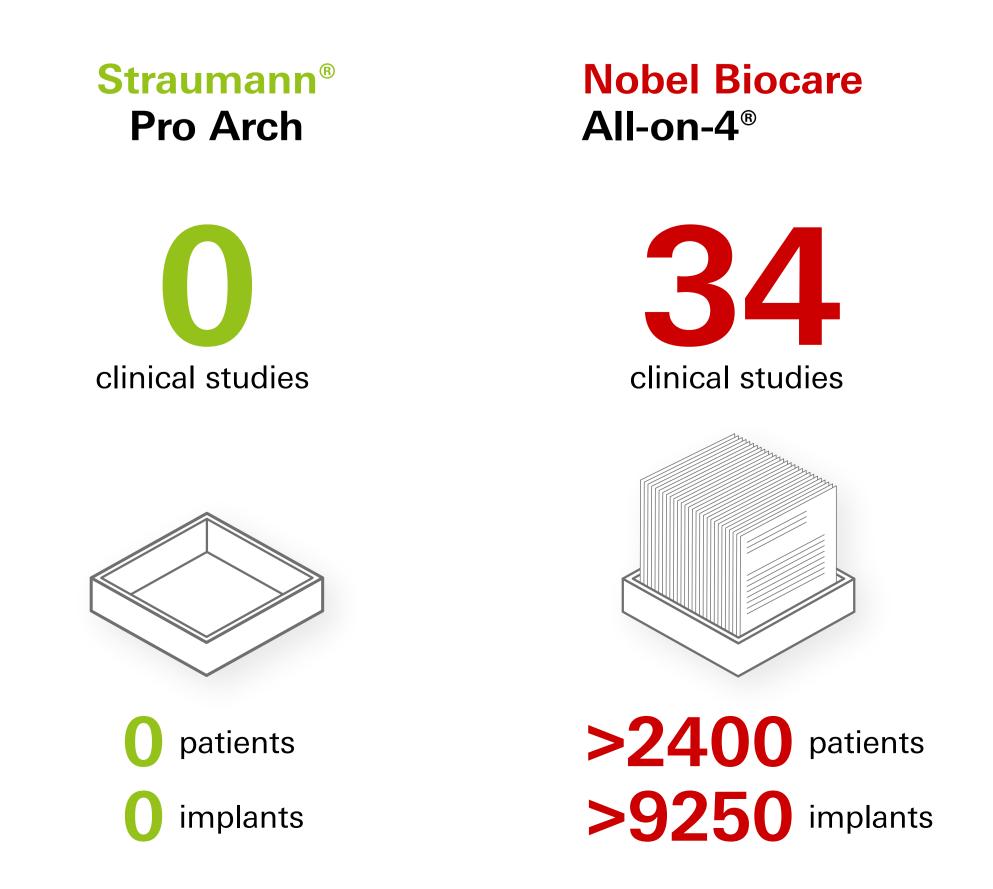

Stable bone levels<sup>5-9</sup> and healthy soft tissue<sup>6</sup>

Implants immediately loaded with radiographic baseline set at time of insertion. Therefore all bone remodeling is reported. Graph shows results for mandible, but results for maxilla are similar. The asterisks (\*) indicate a statistically significant difference (p=0.03).<sup>5</sup>

Often copied, never equaled

Many have tried to copy the All-on-4<sup>®</sup> treatment concept, but only Nobel Biocare has scientifically documented success.<sup>2,10</sup>

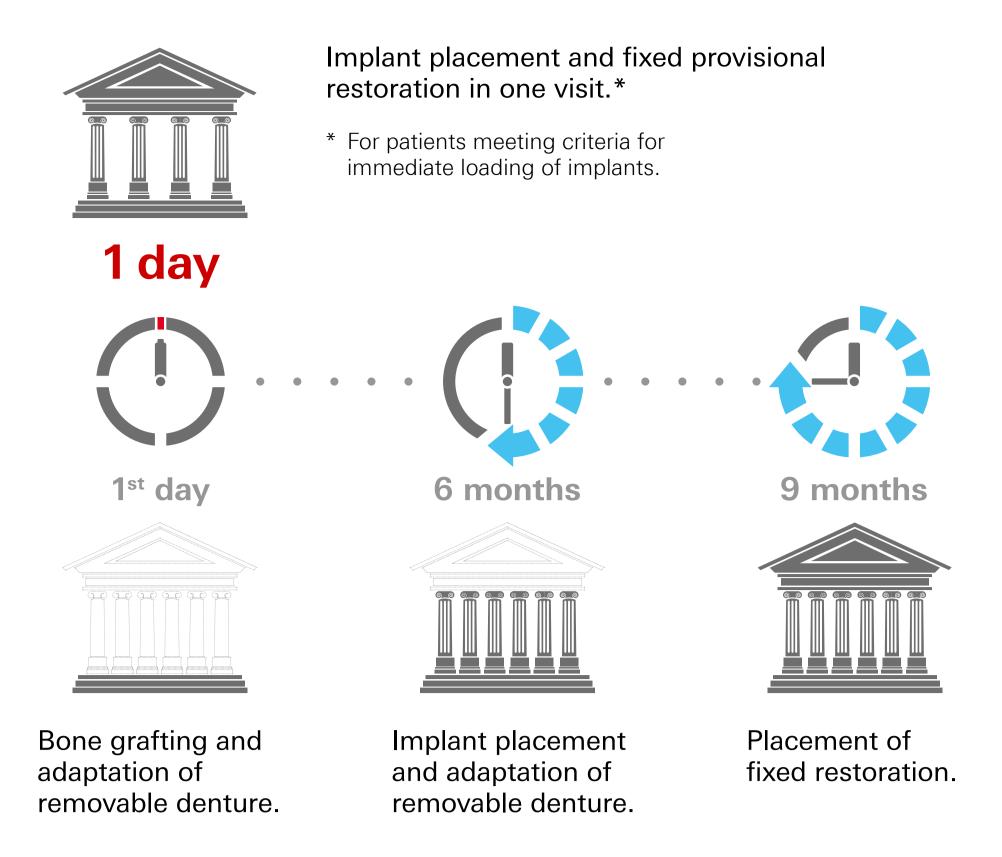

# Life changing

The solution that changes your patients' lives and grows your practice.

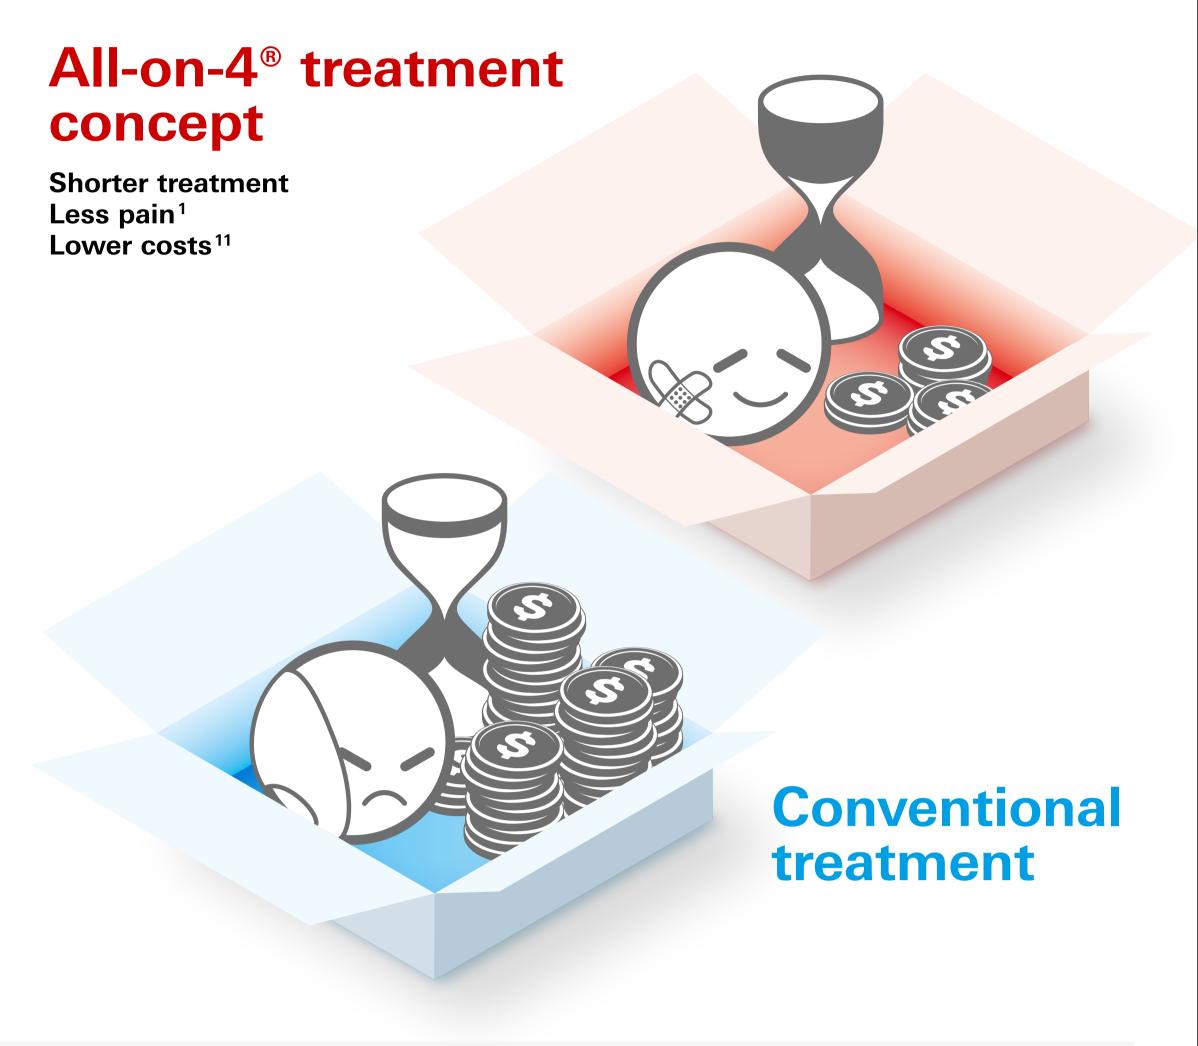

Immediate quality of life on the day of treatment

# **All-on-4<sup>®</sup> treatment concept**

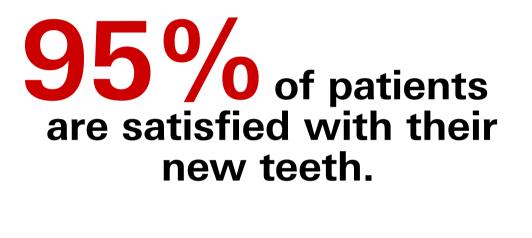

# **Conventional treatment**

Less pain and lower costs

#### High patient satisfaction

With regards to function, esthetics, sense, speech, and self-esteem.<sup>11</sup>

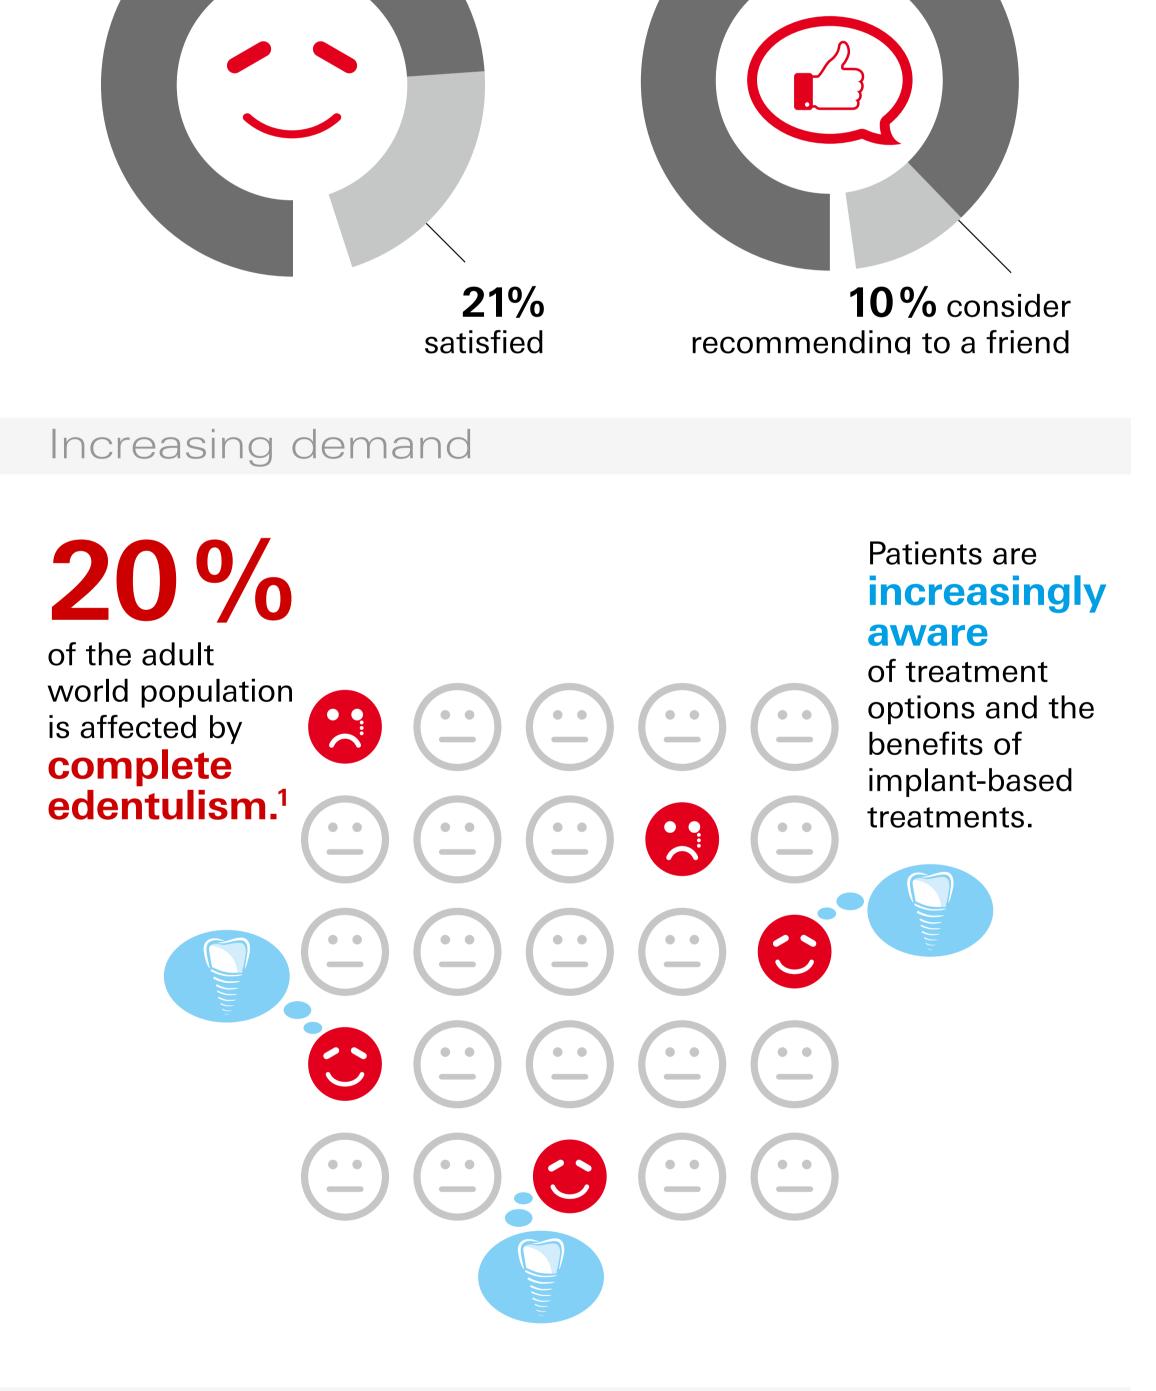

74%

extremely

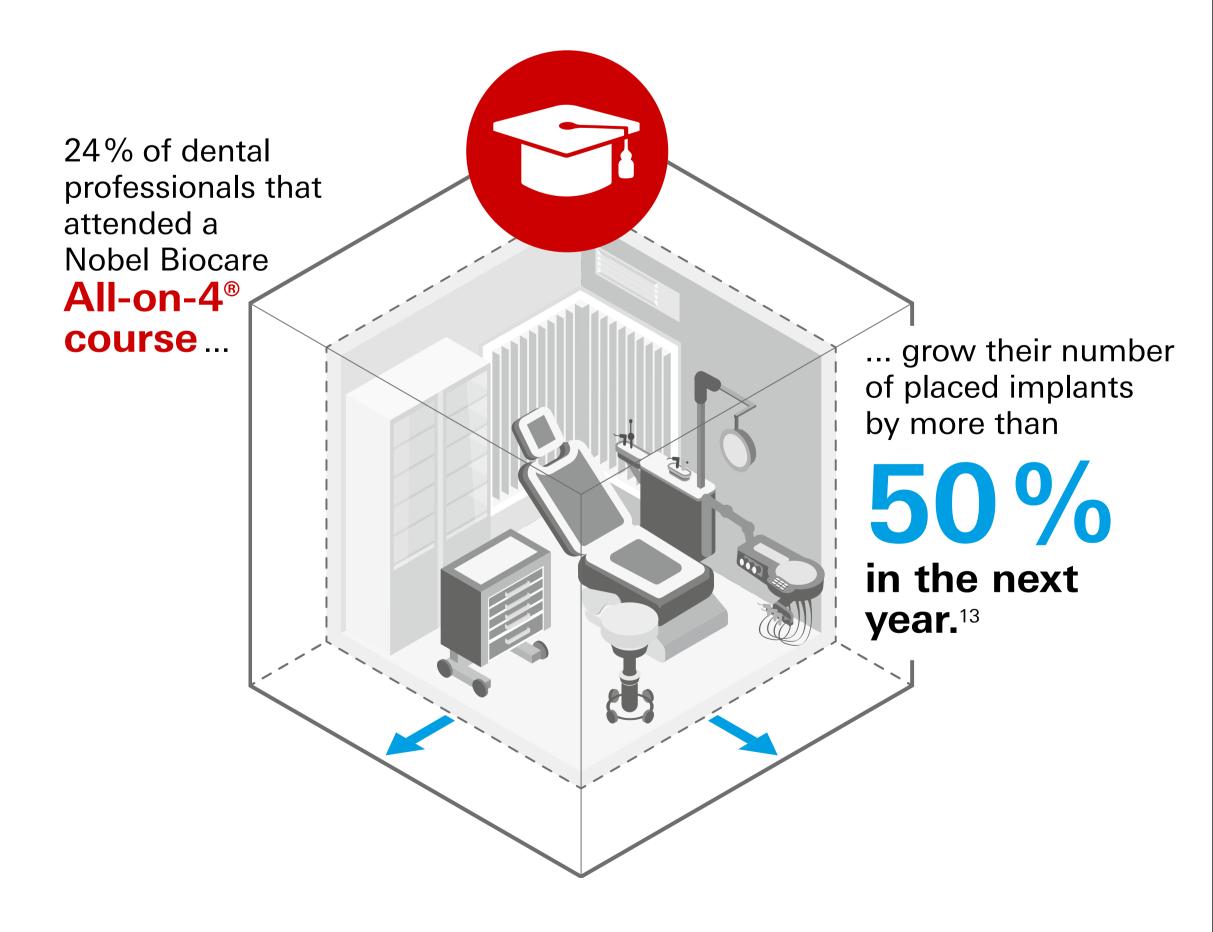

satisfied

88% definitely recommend

#### The solution that grows your practice
