

PSAT TUTORING

Most of the kids with whom we work through the college process come to us right around the time of the PSAT in their sophomore or junior year. We take systematic preparation for this test seriously because it is a great way for a student to gain confidence early in the process. We are available to you to help situate the PSAT within the college process and to craft the right PSAT process for your child.

COMPREHENSIVE SUPPORT

"I will be referring Cambridge Coaching to everyone I know...it is very stressful and having you all helped with the tension and stress dramatically. All I can say is that you all are fantastic. It is COACHING, Cambridge does not do the work for you.

-- Merele Williams (parent), St. Ann's School, Brooklyn, New York

DATA DRIVEN

"This is our first experience with this kind of service, so we didn't know what to expect. In a short period of time our daughter's confidence and understanding of the test increased greatly and was evident while taking many practice sat tests. We're very happy with her improvement."

-- Christine D. (parent), Hopkington High School, Hopkington, MA

PERSONALIZED MATCHING

"I would recommend you enthusiastically and without reservation to anyone...I don't think I've ever waited more than 24 hours for a tutor assignment...Cambridge Coaching not only knows its products and services, but it knows its clients. Thank you for being a resource that I could go to confidently in a very uncertain time! "

--Cathy P. (parent), Lexington High School, Lexington, MA

LONGITUDINAL FOCUS

"My husband and I feel that of all the lessons, camps, etc. we have paid for I our kids' early childhood and teenage years – Cambridge Coaching has by far been the best investment. It is simply the best!"

--Cheryl Liu (parent), Loyola Catholic High School, Mankato, Minnesota
