LSAT TUTORING

We understand the make-or-break importance of the LSAT and we're dedicated to helping you beat the exam. That's why we believe in doing more than just targeting your weaknesses. Your tutor's goal is to identify the sections where you have the greatest potential for improvement, and to help you wring every last point from them.

DATA-DRIVEN

"Troy broke down parts of the stimuli/reading passages really well, and had a clear grasp on the skills and reading habits the test makers were getting at in the material that I would never have noticed on my own! He helped me identify and alter test taking strategies that I didn't realize were working against me, and helped me see that last few points of improvement that I needed!"

(Christine, LSAT)

COMPREHENSIVE SUPPORT

"I don't think I would ever have gotten a 170 without the targeted 1 on 1 tutoring I received. Alyssa picked up on my testing tendencies very quickly and was able to pinpoint where my mistakes came from and why. She then gave me strategies for attacking these question types that served me quite well on test day! She was flexible with scheduling and really a great mentor to have in the tutoring process."

(Celia, LSAT)

TAILORED SYLLABI

"Chelsea was very, very good at explaining new techniques and adapting to my strengths. In the six weeks between the September LSAT and the December LSAT, my score increased 10 points."

(Ben, LSAT)

FLEXIBLE APPROACH

"Suman was flexible with study plans, and really great at explaining questions. He knows all the question types well, and was able to break down small differences between questions that were very helpful to hear."

(Sophie, LSAT)
