

Clarity PSO Celebrates Five Years as a Patient Safety Organization with a Report to Healthcare Providers

In honor of its five-year anniversary as a Patient Safety Organization, Clarity PSO is releasing a five-year report that looks at the progression of the PSO program and the organization's impact on the patient safety movement.

Chicago, IL ([PRWEB](#)) November 18, 2013 -- On November 18, 2013, [Clarity PSO](#) will embark on its sixth year as one of the leading Patient Safety Organizations in the country. Over the past five years, Clarity PSO has been a trailblazer in providing the types of patient safety activities envisioned by AHRQ when the Patient Safety and Quality Improvement Act (PSQIA) was first signed back in 2005 and became effective in February of 2009. Clarity PSO offers its clients industry leading patient safety expertise and state-of-the-art data collection and analysis, and through its five (5) year history has helped healthcare providers better understand the important implications of the PSQIA. "Since becoming one of the first PSOs listed with AHRQ, we have provided PSO services for providers all across the healthcare spectrum. Our expertise and knowledge of how the PSQIA is intended to work and the protections and benefits it affords enables us to provide a level of service and quality of reporting to our clients that is second to none," states Tom Piotrowski, Executive Director of Clarity PSO.

In releasing the [Clarity PSO Five-Year Report to Healthcare Providers](#), Clarity hopes to further educate the healthcare community on the benefits of the PSQIA in general, and specifically on working with Clarity PSO to access its industry leading capabilities in this important area. Tom goes on to say, "This report is truly the culmination of the past five years of work and dedication on behalf of Clarity PSO and our clients to the patient safety movement. There is a lot of value in participating with Clarity PSO beyond the obvious federal protections. The data that are collected, the in-depth analyses, and additional patient safety activities are very powerful tools to heighten awareness and create positive change. This report helps to show those benefits."

About Clarity PSO

Clarity PSO is a federally listed Patient Safety Organization with the Agency for Healthcare Research and Quality, and stands as an independent division of Clarity Group, Inc. Clarity PSO offers healthcare providers a full range of solutions for increasing patient safety, including analytical benchmarking, risk-quality-safety resources, and systems development. Clarity's team of PSO consultants is dedicated to helping healthcare providers of all kinds mitigate risk while improving the quality of care.
