The Medics Suite for Radiology

The RIS that Gets you Paid and Helps Keep Referrers Referring!

Advanced Data Systems: Proven Reliability And Stability

When it comes to automating diagnostic and interventional Radiology and Imaging centers, Advanced Data Systems (ADS) is truly an industry leader.

Over the years, these practices have come to rely on cutting-edge automation solutions from ADS, as have numerous Radiology revenue cycle management companies.

Our Solutions for Radiology

The Medics Suite for Radiology is comprised of the MedicsRIS, MedicsPremier™ for Radiology PM, and the MedicsDocAssistant™ EHR for Radiology. The Suite provides for a myriad of capabilities covering the operational, financial, and clinical sides of any radiology practice.

EMRdirect™: Deliver Finalized Radiology Reports Directly to Any Referring Physician's Stage 2 Certified EMR

A major concern for any Radiology practice is the need to keep its referring community happy and referring.

Without requiring costly HL7 interfaces, EMRdirect from ADS lets Radiologists transmit their finalized reports immediately via secure messaging provided by Surescripts™ directly to their referring physicians' Stage 2 certified EMRs.

EMRdirect invokes directly from within MedicsRIS and gives Radiology practices leverage against competitors and can even help *expand* the referring network!

And, reports can contain links to the patients' images.

EMRdirect provides a huge benefit to the Radiology practice, to its referring physicians and most importantly, to their mutual patients.

- **MACRA / MIPS and Value-Based Radiology**
  - MedicsRIS captures the data needed for Radiology MACRA and MIPS reporting
  - Stay aligned with Medicare's VB medicine reporting requirements for incentives and avoiding penalties

- **ICD-10 Compliant Radiology Billing and EDI requirements**
  - Consistent 99% success rate on first attempt clearinghouse claims
  - ICD-10 Radiology Code Converter
  - Clams Denial Manager and Real-Time Claim Tracking
  - Insurance Verification and Eligibility
  - Radiology Collections Management

- **Attorney Management / Patient Cases / Workers Compensation and No-Fault**
  - Comprehensively tracks and manages information on patients' attorneys
  - Attorney documents and letters are attachable directly to patients' records
  - Clearly displays multiple cases for the same patient
  - EDI and claims for Workers Compensation and No-Fault

- **Advanced Scheduler**
  - Multi-modality scheduling, insurance eligibility verification, pre-certification lists

- **Customized Work Flow**
  - Control and overseeing of patient flow through the facility
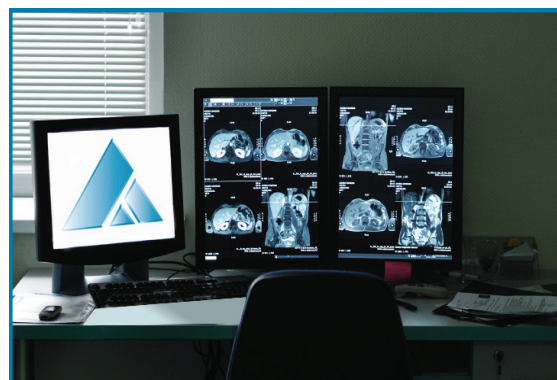

- **Mammography Tracking**
  - Record and track BIRADS findings and biopsy results, and produce ACR statistical reports

- **Radiology Management Reporting and Radiology Business Analytics**
  - Dashboard, graphic and report formats
  - Referring physician analytics and reporting
  - Exportable to Excel™

- **Scanning**
  - Integrated document and image scanning

- **HL7 Compliance and PACS Integrations**
  - Integrates with industry standard HL7-compliant systems and virtually any PACS

- **DICOM Work Lists**
  - Provides study and demographic information to the modalities

- **Patient and Referring Physician Secure Web Portals**
  - Request appointments, view appointment lists, images via PACS and medical reports
  - Patients can complete forms, request appointments and more securely online

The Medics Suite for Radiology and ADS: Versatility Personified and Perfect Together

The Medics Suite for Radiology is unusually versatile, both functionally and operationally.

Functionally, the Suite is very easy to learn and use. It's highly user friendly with an ability for users to operate the Suite in ways best suited toward them.

Operationally, the systems are available in cloud or customer hosted (client server) format.

ADS Programmers have performed hundreds of data conversions from existing systems eliminating the need to re-enter patient data manually. ADS is able to provide a full range of IT and related services, or clients may have their own IT resources.

Established in 1977, ADS has a remarkable history of stability and reliability in the industry. Our company name has never changed, and we continue to be a privately owned, debt-free company to which our clients have easy access.

ADS and our Medics Suite for Radiology represent a superior combination of vendor and software for diagnostic and interventional Radiology practices nationally. Visit www.adsc.com for complete details on ADS and MedicsRIS, and to see our Radiology client profiles and a brief MedicsRIS system overview.

"The real magic happens on the day of the appointment within the MedicsRIS workflow capability. We know exactly what exams have been performed and the proper CPTs because MedicsRIS Workflow collected and carried all that data down the line with each patient's visit."
- Robert Klein, Practice Administrator, University Diagnostic Medical Imaging, New York, NY

EMR*direct*	**Workflow**
Radiology EDI	**Reports / Analytics**
WC / N-F Billing	**Image Scanning**
Multi-Modality Scheduling	**PACS Integrations**
Patient and Physician Portals	**DICOM Worklists**
Attorneys / Cases	**Mammography Tracking**
