MedicsCollect™

Using High End Technology in the Art of Collecting

Collecting patient due amounts is one of the most tedious and exasperating - yet necessary - tasks in all of practice management.

When done correctly, collections is an art. Certain tools are commonly used by artists to make whatever they're working on easier, and to yield more productive results.

The tool your "collections artists" need is MedicsCollect from ADS.

If your medical practice has collections artists, the tool they need is MedicsCollect from ADS.

Developed based on direct feedback from our clients, MedicsCollect is an adjunct to the Medics PM for comprehensive practice management. It will propel your collections team into new levels of efficiency, productivity, and ultimately...increased revenues with:

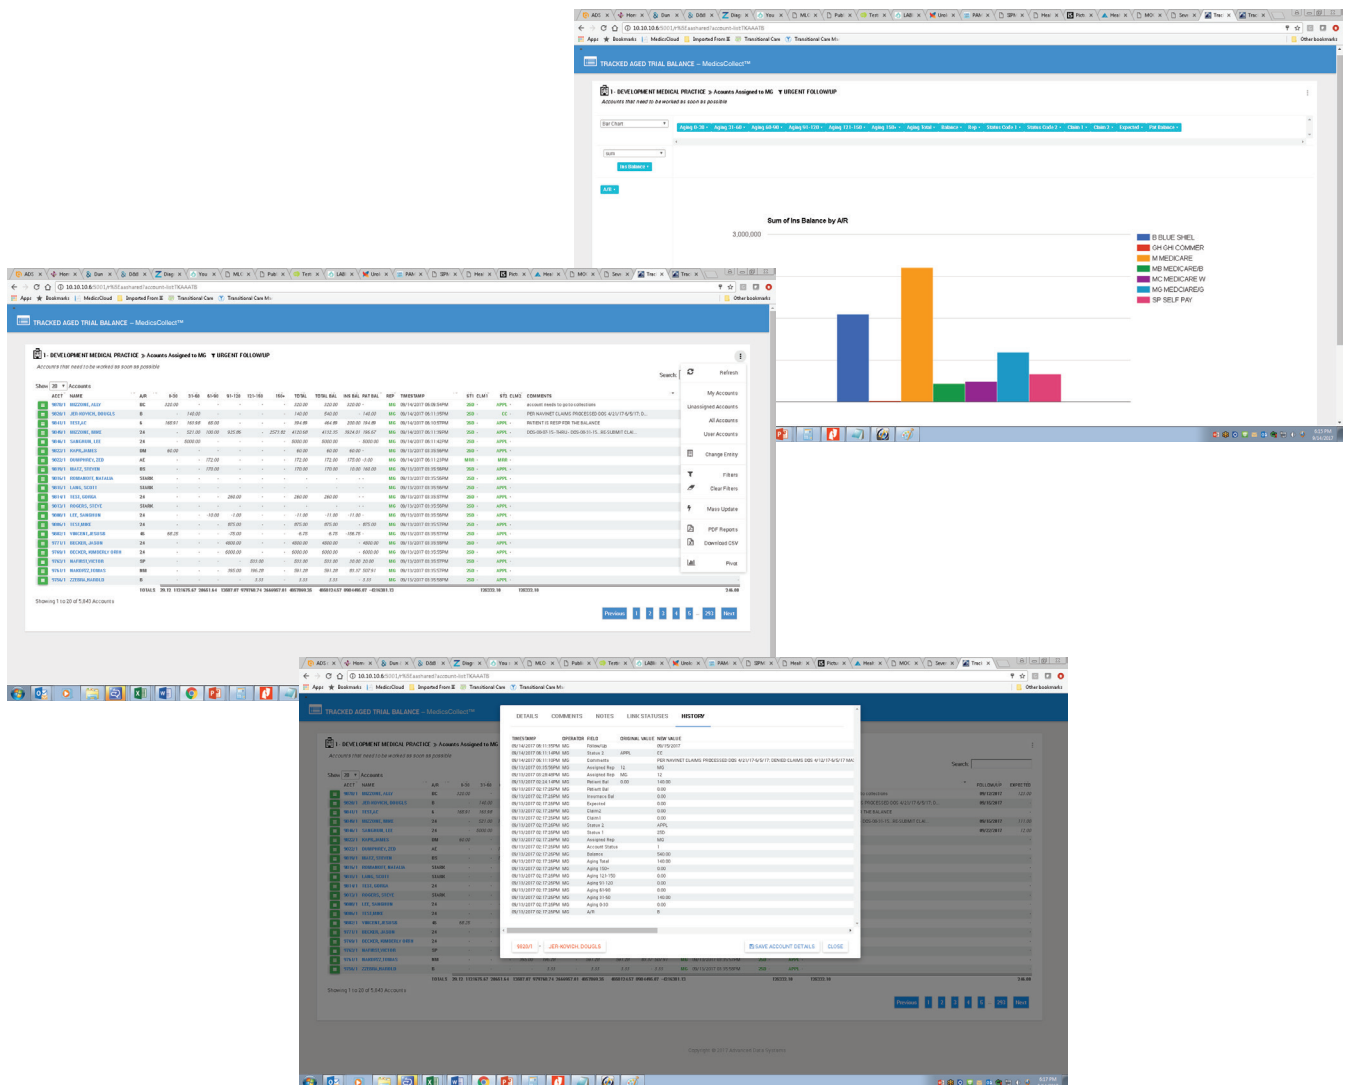

- an ability to assign specific accounts to specific collectors based on any number of administrator-defined parameters such as amount due, geographic location, provider, procedure type(s) and more
- user-defined sorting of fields / layout with "drag and drop" pivot table functionality to drill down into accounts based on A/R, aging, balance, etc.
- unlimited notes for conversations and action items
- detailed follow ups with future-date pending actions and reminders preventing things from slipping through the cracks
- an ability to create dynamic custom filters
- exports of filtered views to Excel™ / working in Excel-like functionality with cells, etc.
- comprehensive PDF reports based on the data used to generate the particular collections accounts
- dynamic totals based on filtered data
- an ability to limit staff doing collections only to be in MedicsCollect via web based access without having access to the entire Medics PM system

- custom status codes based on the collector's needs such as "move to collections," "rebill," etc.
- detailed audit trail of any work, edits, assignments, etc. on each account

Can you increase your own collections team's productivity and turn them into artists?

Yes, any perhaps by several hundred percent when using MedicsCollect!

Contact ADS by at 800-899-4237, Ext. 2264 or email info@adsc.com for more information on MedicsCollect, and on the full range of EDI and practice management capabilities in the Medics PM.

See why thousands of physicians and system operators rely on solutions from ADS.

Advanced Technology. Simple Solutions.™
