WHAT IS DFTS?

DFTS is a domestic transportation services contract managed by the United States Transportation Command (USTRANSCOM) and serviced by Crowley Logistics Inc., a large US based transportation company. DFTS can be used by any US Government agency as well as Government contractors to fulfill transportation service requirements. DFTS provides dedicated full truckload, less-than-truckload, time definite truck/air, rail, and customs clearance service to freight all kinds (FAK) cargo throughout the Continental United States as well as Alaska and Canada. Currently, Crowley is successfully handling over 1,000 orders per day and adding additional locations each week.
