

GANTRADE CORPORATION

QUALITY POLICY

GANTRADE CORPORATION believes that our customers, employees, and suppliers drive the success of the company. Gantrade is committed to providing and maintaining a robust and efficient route to market for our suppliers and providing our customers with solutions to a geographically diversified supply chain. Gantrade efforts will be driven to enhance stakeholder value.

To ensure that Gantrade is delivering the expected results, Gantrade will measure our performance and define actions to improve. The key metrics will include customer and supplier satisfaction, product and market diversification to support business growth, and enhanced stakeholder value.

Improvement efforts will ensure that Gantrade continues to meet the changing requirements in our markets. In order to consistently meet or exceed customer requirements and provide customer satisfaction, GANTRADE CORPORATION is committed to employee growth, the continuous expansion of our product portfolios, continuous improvement of our customer service, and our Quality Management System. Management is committed to supporting this by continual review of this policy for suitability, engaging professionals, working with quality partners, empowering our work force, and providing the resources and the assets necessary to deliver results with strict adherence to regulatory and quality requirements.
