CORWIN

Welcome to the Corwin Professional Learning Conference 2019

It is my great pleasure to welcome you to the Corwin Professional Learning Conference in August 2019. We are thrilled to be able to bring you two days of learning and collaboration with some of the most renowned thought leaders and practitioners in the field.

Over the course of this two-day event, each of you will take a deep dive into powerful implementation approaches that are designed to develop students toward becoming their own teachers. Topics will include visible learners, effective feedback practices and agile leadership where the key goal is to have student learning front and center. Our intention during this conference is to provide opportunities for you to think about the impact you have every day on every students in your classroom, your school and your community.

The expertise and experience of our speaker line-up will provide an invaluable resource as you further your own journey into this exciting work.

Our hope is that over the course of this conference, you will have your thinking challenged, your imagination stirred and your sense of mission bolstered by the ideas and stories you hear. We will provide you with new strategies that you can share with your own school communities in order to start building meaningful relationships that in turn have an enormous impact on student achievement.

I look forward to having you join us in August.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Chris Devling', written in a cursive style.

Chris Devling, Managing Director
Corwin Australia

CORWIN

I look forward to seeing you at the **Corwin Professional Learning Conference** in August 2019. The theme of the conference is **Evidence into Implementation** and certainly one of the biggest issues at the moment is that this world of schools is awash with data. We have so much evidence and in many cases the days of evidence is almost over. The days of implementing evidence is here and we need to get much smarter about how we collect evidence, how we use evidence, and most important of all which I want to talk in my session, is how we implement and evaluate the evidence to see if it is making a difference not only to the lives of the students but also the teachers and our schools.

Everybody talks about evidence but the downside of it is, just collecting the information, just getting test scores, just getting awash with data, just doing evaluation is not going to be good enough. We really need to look at how we go about implementing, look at case studies where it has been successfully implemented, how schools are using evidence to make a difference to their daily lives, and that's going to be the key in where we go here.

There are hot debates around Australia and the world, at the moment, about evidence and many people are putting their fingers into this particular pie. But how do you know how to do it most effectively, how can you see examples of where it is done most effectively in other schools like ours and how we can get really clever at using the evidence, collecting the right evidence and interpreting it in ways that can make the difference is what this conference is all about! I really look forward to seeing you in Melbourne.

Sincerely,

A handwritten signature in black ink that reads "John Hattie". The signature is fluid and cursive.

John Hattie

KEYNOTE SPEAKERS

Prof. John Hattie

Professor John Hattie is an award-winning education researcher and best-selling author with nearly 30 years of experience examining what works best in student learning and achievement.

His research, better known as Visible Learning, is a culmination of nearly 30 years synthesizing more than 1,500 meta-analyses comprising more than 90,000 studies involving over 300 million students around the world. He has presented and keynoted in over 350 international conferences and has received numerous recognitions for his contributions to education. His notable publications include Visible Learning, Visible Learning for Teachers, Visible Learning and the Science of How We Learn, Visible Learning for Mathematics, Grades K-12, and, most recently, 10 Mindframes for Visible Learning.

Shirley Clarke

Shirley Clarke is an internationally known expert on the practical application of the principle of formative assessment. Her career includes teaching and lecturing at the Institute of Education, University of London and directing numerous research projects.

Shirley has recently co-authored a book with Prof. John Hattie titled - 'Visible Learning: Feedback.' Her bestselling books have made assessment and feedback practice relevant and accessible.

Douglas Fisher, Ph.D

Douglas Fisher, Ph.D., is Professor of Educational Leadership at San Diego State University and a teacher leader at Health Sciences High & Middle College. He is a member of the California Reading Hall of Fame and is the recipient of an International Reading Association Celebrate Literacy Award, the Farmer award for excellence in writing from the National Council of Teachers of English, as well as a Christa McAuliffe award for excellence in teacher education.

He has published numerous articles on improving student achievement as well as books, such as Text-Complexity: Raising Rigor in Reading (with Nancy Frey and Diane Lapp), Checking for Understanding (with Nancy Frey) and Common Core English Language Arts in a PLC at Work (with Nancy Frey). He is a board member of the International Reading Association and a past board member of the Literacy Research Association.

Dr Simon Breakspear

Dr Simon Breakspear is known internationally for helping educational leaders navigate complex change, harness research evidence and drive continuous improvement for better learning.

Simon is the Founder and Executive Director of Agile Schools, which equips educator teams with the research, routines and tools they need to drive improvement and innovation. He is also a Visiting Fellow at the University of New South Wales and Research Fellow of the Asia Pacific Centre for Leadership and Change at The Education University of Hong Kong.

Simon holds Bachelors degrees in Psychology and Teaching, a Masters of International and Comparative Education from the University of Oxford and a PhD in education from the University of Cambridge. Simon began his work in education as a high school teacher in Sydney.

Prof. John Hattie

KEYNOTE - John Hattie

The days of evidence are nigh over The days of implementing evidence are nigh

We have so much evidence (VL alone is based on over 300m students), and schools are awash with data. The time now is to implement, interpret and use this evidence to enhance the learning lives of students. This presentation outlines the key criteria for selecting the evidence that has the highest probability of making this difference in a particular school or system; discusses models to most effectively implement these interventions; and outlines how to evaluate the impact of both the intervention and the implementation to diagnose 'where to next'. Examples of these ideas in practice will be provided, as will recommendations how to upscale the dissemination and implementation of evidence.

Shirley Clarke

KEYNOTE - Shirley Clarke

The Power of Formative Assessment

Formative assessment continues to be the single most effective way in which to raise achievement. Key research and practical strategies focus around: a learning culture of student self-efficacy; effective questioning; students activated as learning resources for one another; clear learning intentions and co-constructed success criteria and, finally, both in-lesson and post-lesson feedback.

MASTER CLASS - Shirley Clarke

Feedback - Evidence to Implementation

This session links research with practical tried and tested strategies which work for all phases, illustrated by superb video footage which bring them to life. The culture of trust and self-efficacy sets the scene, followed by teaching frameworks which place feedback in a formative assessment setting. Within-lesson feedback has greatest emphasis, activating students as learning resources for each other and modelling success and improvement so that constant review and improvement becomes the norm. Various manageable ways in which post-lesson feedback is being implemented completes the jigsaw of feedback implementation.

Your take-aways:

- A coherent framework for the elements of effective feedback
- Practical strategies for establishing a school and classroom culture of trust and self-efficacy
- Knowledge about the link with cognitive science and ways to ease the cognitive load of our students.
- Examples of effective questions which delve into student's understanding
- How to implement effective on the move feedback and mid lesson learning stops so that all students receive feedback at once
- Examples of peer feedback
- Examples of manageable post-lesson feedback

Douglas Fisher

KEYNOTE - Doug Fisher

Teacher Clarity

Think about the last time you were engaged in learning something. Perhaps it was for work, perhaps not. When you think about all of the things that helped you learn, what stands out? Was it the intentional actions of a teacher and the opportunity to learn from other students? Was it the design of learning experiences? Was it the flow of those experiences? In reality, it was probably all of the above. Teacher clarity is both a method and a mindset, and it has an impressive effect size of 0.75 (Hattie, 2009). It's teaching that is organized and intentional. It requires that teachers understand what students need to learn, communicate learning intentions to students, develop with students an understanding of success criteria, deliver lessons in relevant and engaging ways, and ensure that assessment drives instruction. The session focuses on nine learning modules takes you systematically through a process that begins and ends with standards:

- Identifying Concepts and Skills
- Sequencing Learning Progressions
- Elaborating Learning Intentions
- Crafting Success Criteria
- Modifying Learning Intentions to Include Language Expectations
- Determining the Relevance of the Learning
- Designing Assessment Opportunities
- Creating Meaningful Learning Experiences
- Establishing Mastery of Standards

Objectives:

- Participants will identify the components of teacher clarity.
- Participants will analyse standards to determine skills and concepts that need to be taught and then sequence learning for students.
- Participants will describe meaningful learning experiences for students to reach expectations.

MASTER CLASS - Doug Fisher

Assessment-Capable Learners

We all know that collective efficacy is the new number one influence on students' learning. And there is good reason for that.

In part, efficacious teachers ensure that their students are assessment-capable, which means that students understand their current level of performance and compare that with the desired level of learning.

Assessment-capable learners and their teachers select direct, dialogic, and independent learning approaches they know will help attain their shared learning goals.

They also seek feedback from others, provide others with feedback, and monitor their learning from acquisition through consolidation to mastery.

Dr Simon Breakspear

KEYNOTE - Dr. Simon Breakspear

The Human Side of Implementation: Embracing agility to overcome the complexity of evidence-informed improvement

Education leadership teams are working to improve a broad range of valued student outcomes through implementing evidence-informed approaches. Yet, making 'what works' work in our unique local contexts, will require supporting our people with both the beliefs and abilities to transform what they do. The human-side of implementation places focus on the role of the leader in responding to human complexity with higher levels of agility to thrive, despite the inherent uncertainty and ambiguity of improvement processes.

In this compelling and practical keynote presentation, Simon explores how leaders can:

- Examine the human-factors which slow down and derail evidence-informed change
- How to focus on a small number of precise improvement strategies
- Commit to starting small, learning fast, and failing well in order to achieve their intended impact
- Develop teams that seek out and iterate their approach based on formative feedback throughout the implementation journey

MASTER CLASS - Dr. Simon Breakspear

Agile Implementation into Action: Getting beyond good intentions towards meaningful impact

Improving learning and teaching in the complex-relational environments of schools is rarely a simple, linear process. As a consequence, the approaches that we use to lead implementation need to be flexible and responsive. In this practical workshop, leaders will gain a clear understanding of the key strategies and tools that can help them to accelerate their current evidence-informed improvement work, including:

- Analyse why default approaches to leading educational implementation so often fail to improve learning
- How to de-risk change by running rapid prototypes of an initiative and gathering early implementation evidence
- Understanding and overcoming resistance as you spread and sustain improvement
- Adopting a 'developmental evaluation' approach to surface useful evidence to monitor the progress, successes, failures and roadblocks in the improvement journey as it unfolds
- Building the team norms and routines to work through iterative cycles of action, feedback and refinement.

Living Books.

Interactive Audio Book with a Human Attached. Borrow one or try the whole collection!

The **Living Book Bibliotheca** is a place where real people are on loan to participants throughout the *Corwin Professional Learning Conference*. In the **Living Book Bibliotheca**, you will connect with other educators and hear their stories how they turned evidence into implementation. All *Living Books* are happy to answer questions so you can add new chapters to your own school's story.

The sessions will be approximately 10-15min in total during morning tea and lunch times on both days of the conference.

Borrow your Living Book experience by clicking [HERE](#) and turn over a new page in your practice.

Living Books on Offer

Ben Walsh (Principal)
Picnic Point Public School
NSW

TITLE: LEARNER DISPOSITIONS ARE A GO

The heroes in this story are the students who have collaboratively developed learner dispositions and the staff who deliberately model and embed them in practice.

What the author says:

"A shared language of learning developed by our whole community has transformed our school from a focus on teaching, to a focus on learners and learning."

Chapters include:

- Primary School
- NSW Urban School
- Developing learner dispositions
- Learner Dispositions in action

Living Books on Offer

Joanne Doherty (Principal) St.
Bernard's Catholic School
Melbourne

Shane Crawford (Learning Leader)
St. Bernard's Catholic School
Melbourne

**Kathryn McAuliffe (Director
of Teaching and Learning)**
Victory Lutheran College
Wodonga, Victoria

TITLE: IMPACT! DO YOU KNOW YOURS?

The hero in this story is the student data and how it was used to plan next steps in learning.

What the authors say:

"We thought we knew the impact we were having on ALL our learners but when we looked closely, we actually did not. With a deliberate plan to gather and use data, collaborate and build teacher capacity we now strategically know the impact we are having on ALL our learners and how to continue to support their learning success."

Chapters include:

- Primary school, Victoria, Melbourne
- Amplifying data from student voice
- Knowing our Impact

TITLE: VISIBILITY VITAL AT VICTORY

The hero in this story is a school culture, rich in student voice and shared language of learning. A school where learning is made visible to ALL learners.

What the author says:

"When we embarked on our Visible Learning journey it was vital that we captured the thinking and voices of all our learners including students and staff. A culture where learning was visible to all became our mission."

Chapters include:

- F-12 College
- Strengthening learning culture
- Dispositions designed for F-12 students
- Making learning visible

Living Books on Offer

Peter Roberts (Impact Coach)
Quirindi High School, NSW

Andrew Harries (Impact Coach)
Quirindi High School, NSW

Michelle Gillett (Principal)
St Francis Catholic School
Victoria

TITLE: IMPACT COACHING > IMPACT CYCLE > IMPROVEMENT

The heroes in this story are the impact coaches who navigated the highs and lows of a change process. Their work continues to transform the way a school shifts from a focus on teachers and teaching to learners and learning.

What the authors say:

"Developing Visible Learners has presented multiple opportunities to celebrate, rethink and challenge our practice. This process has been by far the most effective cycle of improvement our students and staff have ever engaged with."

Chapters include:

- 7-12 Rural High School
- Role of impact coaches
- Challenges and celebrations in leading whole school improvement
- Cycles of impact

TITLE: BUILDING BLOCKS FOR BUILDING CAPACITY

The hero in this story is the leader who is deliberately and strategically creating an architecture of space, time and expertise for impact coaches to lead learning. These building blocks intentionally focus on effective practices to improve student learning.

What the author says:

"A relentless focus of energy on removing distractions and putting in place time and processes to develop the capacity, skills and knowledge of lead learners is showing positive impact on student progress."

Chapters include:

- F-6 Primary School
- Building blocks that focus on effective practices of impact coaches
- Removing distractions

Living Books on Offer

Dane Calleja (Assistant Principal – Learning & Teaching)
Kolbe Catholic College, Victoria

TITLE: THE ROAD TO COLLECTIVE EFFICACY

The hero in this story is the commitment to reaching the ultimate destination of collective teacher efficacy. Throughout the journey there has been a focus on cycles of teacher feedback, evidence based high impact teaching strategies, pedagogical coaching, data analysis and ongoing improvement.

What the author says:

“We continue our focus on building Collective Teacher Efficacy amongst our staff focused on improving student learning. We launched our House Coaching Teams in 2018 and as part of our Learning and Teaching Strategic Plan, we are now embedding cycles of feedback with individualised classroom observations, data analysis and 1:1 coaching for all teachers.”

Chapters include:

- Year 7-12 Secondary Schools
- Pedagogical Coaching/Teacher Feedback Model
- Building Collective Teacher Efficacy
- Strategic Planning and School Improvement
- Evidence Based High Impact Teaching Strategies

Lyn Coote
Professional Learning Leader
Corwin Australia

TITLE: MAKING MATH VISIBLE

The heroes in this story are the mathematical strategies that work best at the surface, deep and transfer phases of learning.

What the author says:

“It is not about following a maths program or an approach but rather knowing where students are at in the learning process and choosing the right strategy at the right time.”

Chapters include:

- Phases of learning
- Key mathematics strategies
- Building, deepening and sustaining mathematical understanding

Living Books on Offer

Michelle Heath
Independent Corwin Consultant
Early Years Teacher and Leader

TITLE: MAKING LEARNING VISIBLE IN THE EARLY YEARS

The hero in this story is the connection between Visible Learning research and Early Years practices.

What the author says:

“Carefully orchestrated practices can make learning visible and support early year’s learners to use a shared language of learning.”

Chapters include:

- Visible learning research
- Practices that make learning visible
- Shared language of learning in the early years

Sue Bryen
Professional Learning Leader
Corwin Australia

TITLE: WHAT'S IN IT FOR YOUR LEARNERS? SCHOOL IMPROVEMENT PROCESS

The hero in this story is the school improvement process whereby evidence, particularly from student voice, determines next steps.

What the author says:

“It’s about developing a culture where everyone is a learner and everyone is a teacher in a school improvement process. There is no one size fits all for school improvement, you have to know your context and design your own journey. ”

Chapters include:

- Creating a culture of collective efficacy
- Using your own school’s evidence to inform your next steps
- Designing the structure and strategic directions to learn how to improve outcomes for all students.

Living Books on Offer

Gilbert Halcrow
Professional Learning Leader
Corwin Australia

TITLE: DISPOSITIONS - DON'T LAMINATE 'EM LIVE 'EM

The heroes in this story are the ways to teach both the affective and cognitive dispositions so that learners actually use them.

What the author says:

“Dispositions are a curriculum where learners move from ignorance, to practice, to valuing, to engagement and finally autonomy. Key to success is establishing first learners’ understanding through instructional design and scaffolds. Giving learners opportunities and strategies to use Dispositions every day in their learning and life.”

Chapters include:

- Dispositions
- Shared Language of Learning
- Affective skills
- 21st Century Learning skills

PROCESS TO BOOK *Master Classes*

You can now **Book your Master Class** topics by following the simple steps below.

1. Register for the event (if you haven't already)!
2. Find your confirmation email and take note of your confirmation number
3. Follow this link: <https://bit.ly/2VFcyPb>
4. Enter your registration email and confirmation number
5. Proceed to select 'Modify'
6. Select your master classes

PROCESS TO BORROW *Living Books*

Borrow your Living Book experience and turn over a new page in your practice by **registering for the conference** and then following the simple instructions below.

1. Register for the event (if you haven't already)!
2. Find your confirmation email and take note of your confirmation number
3. Follow this link: <https://bit.ly/2VFcyPb>
4. Enter your registration email and confirmation number
5. Proceed to select 'Modify'
6. Put your Living Book on hold, to borrow during the conference
