

# Printer Security Statistics Every IT Manager Should Know

## Discover why printers are susceptible to attack

As printing and imaging devices become more complex, so does the task of keeping them secure. Features like wireless printing introduce new opportunities for malware and other attacks.

**56%**

of enterprises leave printers out of their security strategy.<sup>1</sup>

**60%**

of companies surveyed had a data breach involving printers.<sup>2</sup>

**\$133,800**

the average cost per year of security breaches from unsecured printers or multi-functional devices.<sup>3</sup>

## How to defend your devices

**HP Elite Series PCs and HP Enterprise printers include unique features to protect your devices and data.**

**HP SureStart:** Verifies BIOS code at boot cycle to safeguard against attacks.

**HP FutureSmart firmware:** Prevents unauthorized code from executing on your printers.

**Run-time Intrusion Detection:** Checks for anomalies in firmware and memory to protect your devices while they are in use.

**HP JetAdvantage Security Manager:** Continually checks printers' security settings and resolves any problems that are uncovered.

## Empower your business

**Using HP Elite Series PCs gives companies the following benefits:**

- Consistently apply security measures.
- Defend against a host of threats.
- Alleviate the burden on your IT team.

## A strong commitment to customer service

As an HP Silver partner, we deliver IT solutions that lower costs and mitigate risk. With more than two decades and thousands of engagements under its belt, we have developed a distinctive methodology to guarantee project success.

Contact our team at (800) 296-7837 to learn how HP Elite products and HP Enterprise printers can help your company.
