We Save You Money By Saving You Time

If you maintain a maintenance library on your own, you're wasting valuable work hours. With the ATP library staff on your side, you can put your time to better use. And with the ATP® advanced search and indexing features, you can save even more time by getting the information you need faster.

Just think ... if we save you just on hour per week (and most ATP users report saving significantly more), at a shop wage of only \$15 per hour, you're saving \$780 a year. And the greater your information needs, the more time (and money) you save with an ATP® library service. Savings include:

- Decreased acquisition costs.
- Increased efficiency in finding your information.
- Decreased time in filing revisions.
- Increased confidence in the currency of your information.

That's the value you get when you put an ATP® library service to work for you!
