WHOLESALE B2B ECOMMERCE

Sell More Product with One Simple Online Platform for B2B Wholesale Ecommerce

RepSpark is an online B2B e-commerce solution for wholesale businesses that allows sales reps and their buyers to place orders against real time inventory, create digital marketing communications, and analyze key data 24/7. With RepSpark brands leverage technology to drive sales growth, reduce customer service costs, and better serve their retailers.

Learn what RepSpark can do to improve your sales operations by exploring:

Platform Highlights

Provides a high-level overview of RepSpark's most powerful features that will help your organization drive product sales, reduce customer service costs, and better serve your retailers.

Core RepSpark Features

Illustrates RepSpark's comprehensive feature set that when integrated with your organization's inventory management system drives sales growth, builds your brand, and improves efficiencies throughout your sales operations.

Platform Highlights

Digital Marketing Tools

Branded Portal Page: Connect key digital marketing assets with sales reps and buyers via a fully branded “Homepage” that can show top seller assortments, new and featured products, video assets, and connect to various social media platforms.

Digital Catalog & Line Sheet Creator:

Eliminate the costly production of paper catalogs & line sheets by using the Digital Catalog Creator, complete with approved templates, brand assets and real time dynamic inventory.

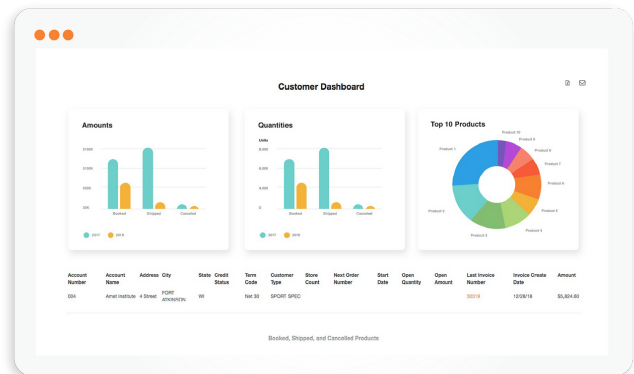

WhiteBoard: A less structured version of the Digital Catalog Creator, sales reps can use the handy drag & drop functionality to add marketing images, overlay embroidery or art onto product, stack images to show a color run, and/or see alternate views of the merchandise.

Email Marketing: Continually communicate your brand story to buyers with our customized email communication templates that make sharing digital marketing materials quick, easy, and measurable.

Event Microsites: Offer exclusive shopping experiences with customized e-commerce micro-sites to facilitate individual product orders for participants in live marketing events such as: golf tournaments, surf competitions, sporting events, retail trunk shows, trade shows, and more.

Sales & Account Management Tools

Customer Communication Hub: This proprietary CRM tool allows brands to view, document, manage, and execute communication between management, sales reps, customer service, and retail accounts.

Sales Forecasting: Easily identify current sales volume to goal by time, sales reps, account, category, or product type.

Booking Status Report: Quickly view a snapshot of how many of your pre-book orders are complete, pending, lost, or not started.

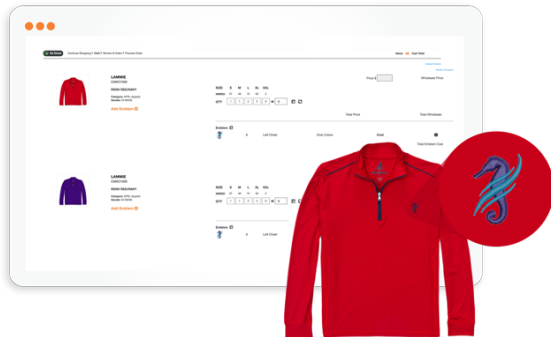

Meeting Prep for Intelligent Selling: With key account data at their fingertips and easy to run reporting tools, sales reps can now go into every sales call prepared to help buyers maximize product sell through and enhance gross margin.

Platform Highlights

Sales Order Entry

Online Order Entry: Allow sales reps and buyers to create and execute orders anytime, anywhere, against real time inventory.

Customization: Easily facilitate the customization of product with embroidery, art, or brand assets via a simple online order entry process that eliminates the opportunity for error and the need for customer service involvement.

Incentive Programs: Motivate retailers to increase their average order value with volume or date-based incentives such as free shipping and % off discounts.

Product Segmentation: Drive sales and in store traffic with a custom curated product assortment that makes every retailer's merchandise unique.

Sales Insights

Customer Dashboard: Everything you need to know about a single customer, on a single screen. With easy to view reports available from what's on order to what the top selling products are this year vs. last year.

Order Status: Sales reps & buyers can quickly and easily know the status of every order that is placed.

Invoices & Package Tracking: View, email and print invoices with images. Decrease customer service hours required to serve retailers by providing ongoing access to package tracking information online

Reporting: Utilize a wealth of reporting tools to better understand the health of your brand including total dollars & quantities sold, top products, trends across accounts, and much more.

Why RepSpark

“I don’t know how we would operate without RepSpark. They allowed us to scale & grow extremely fast.” Katie Daly-Benjamin, COO Johnnie-O

- 🔥 Brands using RepSpark’s B2B e-commerce tool drive, on average, over 150% growth in order volume by independent retailers.
- 🔥 Sales reps using RepSpark are selling on average 34% more in 2019.
- 🔥 Brands using RepSpark have seen an average of 157% increase in orders through the system in 2109.

Brands that are growing are using RepSpark to get there.

About RepSpark:

Most apparel brands use multiple systems that don’t communicate with each other to forecast, manage and ship inventory.

RepSpark is a B2B e-commerce solution for wholesale businesses that simplifies the sales order entry and fulfillment processes by bringing them onto one simple digital platform.

Easily integrated with your inventory management system, your sales team & independent retail buyers can now use a custom, branded portal to place orders against real time available inventory, create digital marketing communications, and analyze key sales data 24/7.

RepSpark helps you: Eliminate order errors, drive sales growth, reduce customer service costs, and better serve your retailers.
