

# Dental and Vision Personalized Agent Enrollment link AOA links that tie applications directly to you

## It's Easy

- Your clients can get a quote and apply online at any time.
- You will be credited and paid a commission for your valuable services.
- Your contact information appears on the site so your client knows they are working with you and can reach out to you with questions either by phone or email.

Plus: You can track status of these quotes and applications through the Agent Workbench, and you will receive an e-mail notification when enrollment is submitted.

The screenshot shows the Humana website interface. At the top, the Humana logo is displayed. Below it is a decorative banner with a floral pattern. The main content area is titled "Choose a plan" and is divided into three sections: Dental, Vision, and Medical. The Dental section includes a description of dental insurance benefits and a "Find a dental plan" button. The Vision section includes a description of vision insurance benefits and a "Find a vision plan" button. The Medical section includes a note about discussing medical products and contact information. At the top right of the main content area, there is a section for "Your Humana Agent: Smart Test Agent" with contact details including an email address (abcd@humana.com), a physical address (1100 Employers Blvd, Green Bay, WI 54344-0001), and a phone number (920-336-1107).

## Here's How It Works

Simply replace the example agent number (9999999) with your Humana Agent Number in the link below. Use this link in your email communications.

<https://www.humana.com/agent/health-insurance-Agents/AOALanding?SANID=9999999&isMarketpointAgent=false>

**Please note:** If you are using an old URL that does not match the one above you will need to replace it with this new link. Failure to do so may result in unexpected errors and the possibility of the application not being tied to you as an agent.

**Humana**®

For Agent Use Only

All products in your state that are currently available on the Agent Workbench will also be available for quoting and application through these AOA links. If a product in your state is not currently available on the AWB, it is not yet available through this tool.

**You will only be able to sell the products for which you are licensed and appointed.**

If you have questions, please call the Agent Support Unit (ASU) at 1-800-309-3163 or email [agentsupport@humana.com](mailto:agentsupport@humana.com). You can also contact your Humana Sales Representative.
