

We Help to Ensure the *Privacy and Security* of the Most Sensitive and Critical Data in the Data Center.

DO YOU KNOW WHO IS ACCESSING EVERY CRITICAL AREA?

Security is at the core of the data center. BioConnect understands this. Leveraging biometric technology, BioConnect helps the data center to ensure the **privacy and security of the most sensitive and critical data in the data center** by securing critical areas from the front door to the cabinet.

DUAL-FACTOR BIOMETRICS ALL THE WAY TO THE CABINET
