Position: Penetration Tester/Hacker

BioConnect is building the next generation of identity management system for 7 billion humans on the planet. We are on the quest to give each human being one true identity and remove all forms of suspect identities.

We are looking to hire a resourceful penetration tester to join our security team. You have a natural curiosity and insane drive to learn how things are working behind the scene, and then break them in unexpected ways. You will use your capabilities to seek out exploits in our applications and infrastructure and destroy them. You keep your abreast with newest security risks, vulnerabilities and trends and know how to test for them. As part of the team you will probe, network, applications, mobile devices, embedded devices and processes. If this sounds like your passion, we will love to hear from you.

Requirements and Skills we are looking for:

- 5+ years of experience in penetration testing across different domains (mobile, web, network)
- Experience using common web application penetration testing tools.
- Coding proficiency in Ruby or Python or another scripting language to develop test scripts.
- Understanding of iOS, Android, Windows and Linux security subsystems.
- Understanding of browser security.
- Knowledge of TCP/IP, UDP, HTTP, HTTPS, TLS, SMTP, DNS, DHCP, 802.1x
- Knowledge of encryption standards.
- Ability to simulate sophisticated attacks across our infrastructure to identify vulnerabilities.
- Ability to clearly explain security incidents and concepts to executive leadership team.
- Excellent communication skills.

Bonus points if you have any of following:

- Published vulnerabilities.
- Presented at blackhat or white hat conferences.
- Experience creating business process to respond to security incidents.
- Created tools which are being used by other hackers.
- Github/Bitbucket account with cool projects.
- BS or MS in Computer Science

You will be at the front lines of a rapidly growing company, creating defense layers which will protect the company infrastructure and exposing security holes in our products.

We are company which take pride in grit, getting things done and excellent customer service. We work hard, play hard and have an amazing time changing the world, so join us in our Quest for Rightful Identity and make a difference.

So, do you think you have what it takes to join this fast-growing team?

Please contact us at careers@bioconnect.com to apply for this position or visit www.bioconnect.com/careers to apply online. We appreciate all expressed interest in this position, however, only the candidates selected for interview will be contacted.
