"We achieved our primary goal of growing net income for the fourth consecutive year in 2018. We are also targeting a fifth consecutive year of non-GAAP net income growth in 2019, although the first quarter is expected to dip due to seasonal factors and timing of orders and revenue recognition. We continue to see a high level of customer activity in most geographic regions due to the continued expansion of 4G in some areas and the beginning of the transition to 5G in others. To help our customers address their specific challenges, we are offering constantly expanding capabilities from both existing and new platforms, as we also continue to invest aggressively in our next generation technology."
