Why Groupcall Xporter, XVault and XVault Reporting?

✓ Scalable solution that is suitable for small, medium and large Academy Groups (and those growing at a rapid rate)

✓ Instant access to up-to-date attendance, assessment, exclusions, attainment, enrolment summary data etc., across all your Academies

✓ Drastically reduces time spent by staff collating Academy spreadsheets and documents for holistic data aggregation and reporting

✓ Simplistic reporting interface that can be used to add value across multiple departments within an Academy Group

✓ Automated solution that requires almost no administration from Academies or Academy Groups

✓ Safe, secure and encrypted transmission of Academy data between destinations

✓ Low annual solution cost that adds real value to your Academies and employees

What our customers are saying

bett awards 2013 WINNER   **BESA**   **WINNER BETT Awards 2015**

" We have been working with Groupcall to develop a bespoke system to seamlessly acquire management information data from our academies to monitor, manage, challenge and support their progress and the educational improvement of the children and communities in which they serve. Groupcall have been highly supportive, swift in action and have played a vital role in allowing us to create dynamic monitoring and reporting mechanisms. Working with them has been essential to our plans and I cannot recommend them highly enough. "
Ormiston Academy

" With Groupcall Xporter, we now have an improved workload for staff with greater control and confidence in completeness. Time is now more productively targeted towards improving data quality and performance! "
Central Bedfordshire Council

" Groupcall's aftersales support and service has been excellent and as an authority we are pleased with the success that using Groupcall Xporter within our SIF infrastructure has already achieved. We were excited about how far we can build out on this success and expect to continue to exploit our investment. "
Norfolk County Council

" Derbyshire's manual data imports used to result in up to 4,000 unmatched records, this used to take months to clear up. Groupcall Xporter does exactly what it says on the tin! "
Derbyshire County Council

Supported MIS systems include: Capita SIMS, Pearson e1, RM Integris, Progresso and Facility CMIS, iSAMS, Bromcom, Double First, Aspen and WCBS Pass

ACADEMIES

An automated centralised and aggregated school data solution

See how your Academy Group can benefit from Groupcall's suite of Xporter products

Groupcall has developed a range of tools enabling Academy Groups to automatically centralise and aggregate school MIS data. Groupcall Xporter, XVault, XVault Reporting and Dashboard provide an end-to-end solution built around supporting the need to access 'near real time' data for a wide range of reports and to drastically reduce the administrative burden of accessing data from multiple schools. As Groupcall supports all major UK MIS vendors, we can also provide a solution for those with a mixed economy of MIS systems across their entire estate.
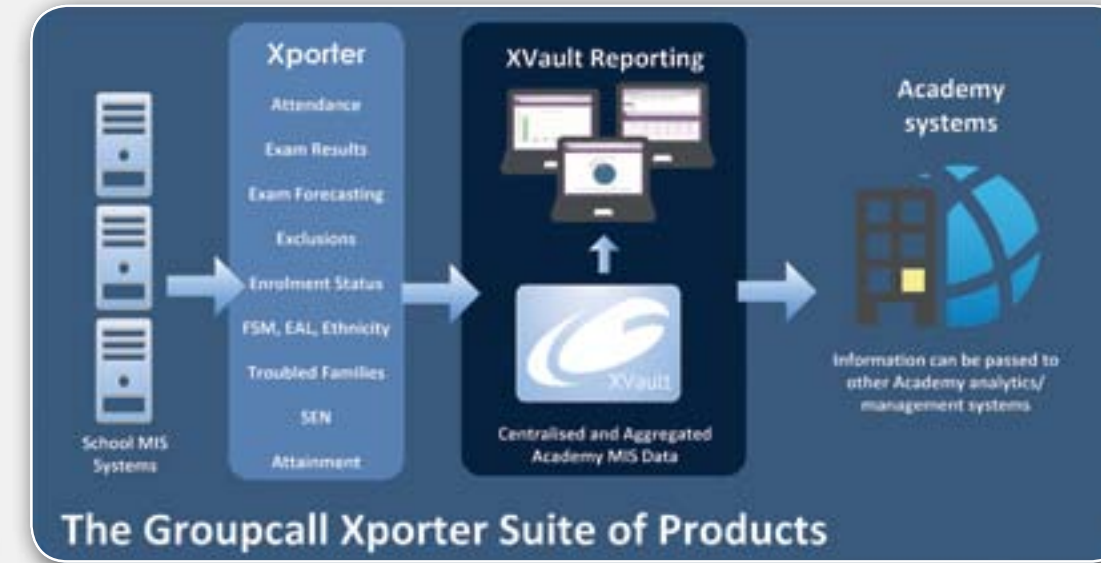

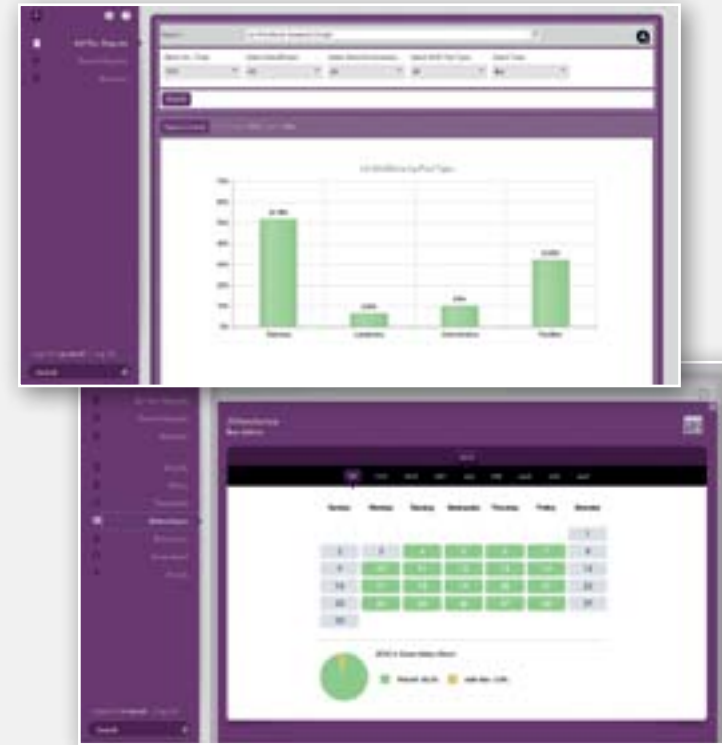

✓ Scalable solution that is suitable for small, medium and large Academy Groups (and those growing at a rapid rate)

✓ Instant access to up-to-date **attendance, assessment, exclusions, attainment, enrolment summary data, exam results** and **result forecasts etc,** across all your Academies

✓ Drastically reduces time spent by staff collating spreadsheets and documents for holistic data aggregation and reporting

✓ Simplistic reporting interface that can be used to add value across multiple Academy offices

✓ Automated solution that requires almost no administration from Academies or Academy Groups

✓ Flexible schedule of data aggregation to suit the needs of your Academy Group

✓ Safe, secure and encrypted transmission of Academy data between destinations

What the Xporter product suite contains

Groupcall's model for centralised MIS data aggregation and reporting

Groupcall Xporter:

✓ Powerful data extraction tool used in approximately 80% of UK secondary schools

✓ Supports all major UK MIS systems

✓ Delivers encrypted data

✓ Requires little or no administration by Academies or Academy Groups

✓ Flexible Scheduler to deliver data when required or on-demand

The Groupcall Xporter Suite of Products

Groupcall XVault:

✓ Centralised database for aggregating Academy MIS data, regardless of the system used at your schools

✓ Frequently checks for any changes to pertinent Academy MIS data and keeps itself up-to-date

✓ Provides a platform to report on all academy data anytime, anywhere

✓ Low annual subscription

✓ Requires little or no administration by Academies or Academy Groups

✓ Easy to deploy and provides scalability for future growth of Academy Group

Groupcall XVault Reporting:

✓ Intuitive user interface designed to support non-technical members of staff

✓ A window into all your Academies data from one central location

✓ Reports are automatically updated using Xporter and XVault

✓ Event reports can be created to alert users to relevant data changes or targets as determined by their role

✓ Scalable to fit the needs of Academy groups of any size

✓ Accessible at anytime, anywhere by authorised staff

Groupcall Xporter Dashboard:

✓ Easy to use interface that monitors the consistent delivery of Academy MIS data to XVault

✓ Provides a platform to manage required updates and changes to your Academies from one central location

✓ Clear and concise indicators highlighting when a school is failing to deliver data to XVault

✓ Dashboard can be used to publish any changes to an Academy Xporter extract in the event of an MIS vendor annual system upgrade (e.g. Capita, Pearson etc.)

✓ Saves your technical and network teams time and effort managing MIS data flow from Academies

✓ Low annual subscription
