

LiveSupport 360

Focus on your SAP priorities and let IntelliCorp provide the expertise to maximize the value of LiveCompare software.

Get Maximum Value from LiveCompare

What is LiveSupport 360?

The LiveSupport 360 program helps companies accelerate their implementation of smart DevOps powered by LiveCompare. The program gives you access to use LiveCompare with the bonus of additional expertise and support by our team of dedicated Application Engineers who will provide insights on how to best utilize the technology and maximize the value of LiveCompare.

Dedicated Application Engineer

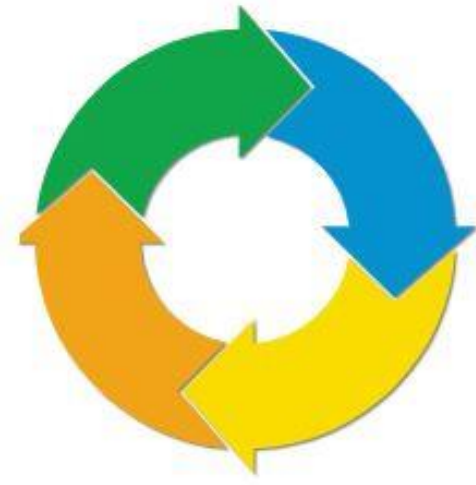

Proactive Support

Your Application Engineer will be involved in all team meetings and assess your internal processes to provide recommendations on how to get the most value out of LiveCompare. Your Application Engineer will provide the following:

- Use VPN to manage & administer LiveCompare
- Proactively deliver meaningful results
- Participate in team meetings

LiveCompare Upgrades

Your Application Engineer will make sure LiveCompare is up-to-date and routinely perform upgrades when they become available.

BASIC TRAINING

Your Application Engineer will organize basic training for those interested in learning the tool themselves.
