

# Doctors Online

## Provide Better Defense Against COVID-19

Arm Employees with Knowledge and Support

As employees are seeking reputable information on how to prevent, diagnose, or treat the novel coronavirus, COVID-19, steer them away from “Dr. Google” and towards Doctors Online. Doctors Online provides a secure online portal for employees to communicate with expert healthcare professionals about their questions and concerns.

### How Employees Can Use Doctors Online

As a free and unlimited service, employees can lean on the Doctors Online medical team to:

- ▶ Get more information on what COVID-19 is and how it's spreading
- ▶ Learn the best preventative measures they can take to reduce their risk of infection
- ▶ Discuss any symptoms they may be experiencing and determine what their next steps should be
- ▶ Separate fact from myth with the news they've seen online
- ▶ Address their fears about the severity of COVID-19 and what they should do

### How You Can Use Doctors Online

Consider Doctors Online your personal COVID-19 consultants during this time. Their medical team is continually monitoring news coming from reputable sources like the CDC, so you can rely on them to provide trusted, up-to-date information and help you determine the most effective workplace preventative measures.

### Doctors Online is Ready to Help

Doctors Online has increased their on-call medical staff, who are equipped to work remotely and will continue to service employees during this time. To ensure prompt service, they are identifying COVID-19 questions and flagging them for priority response.

Contact a Doctors Online healthcare professional by logging on through the **My Benefits Work** mobile app or **MyBenefitsWork.com**.
