

eRemit Electronic Remittances for Infor SunSystems

Overview

eRemit automatically emails the payment remittances to your suppliers from Infor FMS SunSystems.

What customers find useful in eRemit:

Designed for your business

- Fully integrated to your Infor FMS SunSystems data
- Process the remittance run when convenient to you
- Custom design the reports to incorporate your company logo and branding
- Provides a choice of distribution methods: email, fax or print
- Ability to archive remittances sent
- Customisable, updatable email message

Saves you time & money

- Reduces paper and postage costs
- Eliminates admin time & effort
- Used in conjunction with B4B, notify suppliers of payments made, significantly reducing wasted time & effort on payment queries
- Quick implementation – usually 1 day to get you fully operational on eRemit

"eRemit is a great product as it is quick and easy. It is greatly appreciated by our suppliers with whom over 90% are now paid via EFT."

Quick and instantaneous

- Caters for large volume emails
- Option to preview and print
- Emails are automatically distributed once generated and released by the user

5 easy steps to determine ROI on your eRemit investment

1. Determine the postage cost per envelope plus the number of cheques paid monthly.
2. Calculate the monthly cost of posting cheques.
3. Determine the cost of installing and getting eRemit operational. You can contact us for an indicative quote.
4. Determine the number of months it will take to payback your eRemit investment.
5. Call us to discuss the next step.

Features that make eRemit powerful out of the box.

- User can customise report layouts
- Send reports in PDF or RTF formats
