

Bio 800⁺

BUILDING RESILIENT

Trees and Shrubs

Holganix Tree & Shrub provides a complete microbiome with over 800 species of active, diverse microorganisms to promote:

↑ Root growth

↑ Up to 75% less fertilizers & pesticides

↑ Improved water retention

↑ Tolerance to stress from weather & insect

HOLGANIX
Soil Nourishing Root Stimulating™

APPLICATION RATES:

Application	Holganix Rate	Water Volume	Application Method	Coverage
New Installation	2.25 Gallons	100 Gallons	Spray until runoff, drench soil to saturation or one gallon of mixed product per DBH	14,250 Sq. Ft.
Tree & Shrub Maintenance Program	2.25 Gallons	200 Gallons	Spray until runoff, drench soil to saturation	28,500 Sq. Ft.
Flower Beds	0.25 Gallons	25 Gallons	Water plants every 2-3 weeks or one gallon of mixed product per DBH	Varies
Bare Roots	Concentrate	Concentrate	Dip roots into concentrate for 4 hours, DO NOT exceed 6 hours.	Varies

"Our favorite part about Holganix Tree & Shrub is that it allows us to drastically reduce our synthetic inputs like fertilizer and pesticides," says Mary E. Petit, Incredible Edible Community Garden's (IECG) Founder.

IECG uses Holganix Tree & Shrub with Holganix Blue Sky in their tree nursery and when planting trees in new parks and on the streets.

"IECG would definitely recommend Holganix Tree & Shrub to other growers," states Mary.

HOW DOES HOLGANIX TREE & SHRUB WORK?

1

Microbes, including Plant Growth-Promoting Bacteria and Mycorrhizae, stimulate healthy growth in plant foliage and roots.

2

Microbes convert and release nutrients (plant food) to the plant.

3

Microbes promote the plant's tolerance to stress, including weather and traffic.

4

Microbes balance the soil ecosystem, providing a happy habitat for happy plants.
